examines the south american country that is destined to be one of the world s premier economic powers by the year 2030 and considers some of the abundant problems the nation faces

brazil s northeast has traditionally been considered one of the country s poorest and most underdeveloped areas in this impassioned work the brazilian historian durval muniz de albuquerque jr investigates why northeasterners are marginalized and stereotyped not only by inhabitants of other parts of brazil but also by nordestinos themselves his broader question though is how the northeast came into existence tracing the history of its invention he finds that the idea of the northeast was formed in the early twentieth century when elites around brazil became preoccupied with building a nation diverse phenomena from drought policies to messianic movements banditry to new regional political blocs helped to consolidate this novel concept the northeast politicians intellectuals writers and artists often nordestinos played key roles in making the region cohere as a space of common references and concerns ultimately albuquerque urges historians to question received concepts such as regions and regionalism to reveal their artifice and abandon static categories in favor of new more granular understandings

in brazil where crime is closely associated with social inequality and failure of the criminal justice system the police are considered by most to be corrupt inefficient and violent especially when occupying poor areas and they lack the widespread legitimacy enjoyed by police forces in many nations in the northern hemisphere this text covers hot button issues like urban pacification squads gangs and

drugs as well as practical topics such as policy dual civil and military models and gender relations the latest volume in the renowned advances in police theory and practice series police and society in brazil fills a gap in english literature about policing in a nation that currently ranks sixth in number of homicides it is a must read for criminal justice practitioners as well as students of international policing

nineteenth century brazil s constitutional monarchy credibly committed to repay sovereign debt borrowing repeatedly in international and domestic capital markets without default yet it failed to lay the institutional foundations that private financial markets needed to thrive this study shows why sovereign creditworthiness did not necessarily translate into financial development using a vast array of archival evidence summerhill convincingly shows that political commitment to a secure public debt was neither necessary nor sufficient to insure financial development in nineteenth century brazil a must read for economic and financial historians and for anyone interested in the politics of financial development jean laurent rosenthal california institute of technology

includes bibliographical section

studies on variation in portuguese offers a collection of studies on a range of variable phenomena attested within and across varieties of portuguese the volume starts out with an overview of current issues in the study of intralinguistic variation and is divided in two parts part 1 is dedicated to research on variation within national varieties brazilian and european here a multidimensional analysis that combines both the geographic and the social dimensions of variation emerges as a way to identify possible regional specificities and the directionality of some of the variants part 2 collects studies that compare the behavior of a particular linguistic variable across different varieties the variable phenomena discussed concern several levels of grammar and are framed within different conceptions of variation thus promoting confrontation of theoretical and methodological alternatives overall the volume constitutes a significant contribution to the essential question of how to model variation at different levels
