anthony ruff osb has written a brilliant comprehensive well researched book about the treasures of the
church s musical tradition and about the transformations brought about by liturgical reform the liturgy
constitution sacrosanctum concilium stated many revolutionary principles of liturgical reform regarding
liturgical music the council s decrees mandated on the one hand the preservation of the inherited
treasury of sacred music and on the other hand advocated adaptation and expansion of this treasury
to meet the changed requirements of the reformed liturgy in clear precise language he retrieves the
council s neglected teachings on the preservation of the inherited music treasury he clearly shows that
this task is not at odds with good pastoral practice but is rather an integral part of it the book
proposes an alternate hermeneutic for understanding the second vatican council s teachings on
worship music

examining the key works of buzzati and morante siddell looks at two coexisting and conflicting approaches one which defined place as an outcome of individual perception and another in which place is understood as an arrangement of locations separate from the individual the progression of buzzati s texts from plausible indications of location to perception bound space is examined as is morante s use of enclosed spaces as the basis of a conceptualisation of elsewhere paying attention to the contrast and interaction between opposing constructs of place
