this book seeks a better understanding of the sociocultural and ideological factors that influence english study in japan and study abroad contexts such as university bound high schools female dominant english classes at college esl schools in canada and private or university affiliated esl programs in singapore and malaysia the discussion is based not only on data garnered from japanese efl learners and japanese overseas educators but also on official english language policies and commercial magazine discourses about english study for japanese people the book addresses seemingly incompatible themes that are either entrenched in or beyond japan s efl context such as japan s decades long poorly performing english education vs its equally long lived status as an economic power japanese english learners preference for native english speakers norms in at home japanese efl contexts vs their friendship with other asian students in western study abroad contexts japanese female students dream of using english to further their careers vs japanese working women s english study for self enrichment japanese society s obsession with globalization through english study vs the japanese economy sustained by monolingual japanese businessmen japanese business magazines frequent cover issues on global business english study vs japanese working women s magazines less frequent and markedly feminized discourses about english study

this book examines cross cultural management within multinational enterprises mnes focusing in particular on how cultural differences influence the transfer of knowledge between different units within individual corporations it argues that improving cross cultural management in international business should focus less on upgrading technology and more on the capabilities and beliefs of individual employees

this uniquely authoritative collection of original papers with contributions from over twenty countries provides a rare insight into research and applied programs in the study of individual differences in children and adolescents worldwide while delinquency proves to be one of the most common areas of interest a wide range of cognitive personality and social characteristics are examined and the use of the eysenck personality questionnaire in many studies allows uniform comparisons to be made between countries the editors have not only overcome the language barriers which hitherto have made such information virtually inaccessible to the english speaking world they have also succeeded in bringing together studies from developed and developing countries east and west to present a global picture of adolescent and child psychology in particular the book highlights the general and specific cultural influences on child development and adolescent psychology in different countries and reflects the social and research concerns of the countries and cultures represented the authors comprise a cross section of professionals in the social and behavioral sciences working in university and clinical settings while north america is well represented by six chapters including puerto rico as is europe particular efforts were made to obtain

contributions from eastern europe asia and africa at the time this book was developed information exchange with eastern european countries was most difficult it is very exciting to present chapters from hungary lithuania romania russia and yugoslavia the inclusion of articles from japan korea singapore sri landa and uganda also add another dimension to studies of individual differences in children contributions from australia israel and new zealand also allow the book to take on much more of an international perspective on topics ranging from delinquency fears and motivation to intelligence personality and assessment issues this volume provides a plethora of international perspectives on the study of children it will be essential to sociologists psychologists educators and child study specialists

this clear student friendly text offers a step by step introduction to the use of spss easily the most widely used data analysis computer package in the social sciences supported by four datasets taken from the well known british social attitudes survey on the topics crime health politics and poverty it offers an eminently practical approach to its subject while still setting its explanation of statistical procedures within the wider social research context
