this well documented study discusses the social and economic changes in shandong province before the influence of the west was felt at the end of the nineteenth century the authors show that by the sixteenth century commercial and handicraft towns linked to national and local markets had already begun to emerge urban growth was made possible by increased agricultural production which in turn stimulated specialization and increased commercialization in the agricultural sector another important change in rural society at this time was the emergence of a new stratum of wealthy landlords who managed their estates with wage labor case studies of managerial landlords who form the main focus of this study are included as well as generalizations drawn from questionnaire materials luo lun and jing su wrote this book while they were young researchers at shandong university in the late 1950s using data they had gathered in the culturally relaxed period of the hundred flowers in his introduction endymion wilkinson analyzes the authors thesis and concludes that their leninist model is inapplicable to premodern chinese history the value of this study lies not so much in its conclusion that even without the impact of western imperialism china would of itself have developed a capitalist

society but rather in the wealth of data the authors present in this first in depth study of a relatively advanced region in north china

caucasus history 19th century

does social science matter yes why does social science matter it provides humans with knowledge in form of research and theory that allows us to understand our surroundings and how the social realm works in addition to the theoretical and empirical understanding of the social realm social science allows us to anticipate and shape aspects of future social developments and outcomes e g demography and human security and social unrests or actions and potential reactions between and among individuals state actors and non state actors and their implication on the social realm thus social science matters due to its canon of knowledge which empowers humans with tools to not just understand the social realm but also mediate in social dynamics and suggest policy reforms humans keen on the social science develop practical skills distinctly valued in all forms of social dynamics for instance individuals can understand their social surroundings assess decisions they attempt to make and such which political leadership conducts on their behalf without our knowledge in social science our understanding of the social realm is less complete and our objectivity is less robust this book provides a platform for readers scholars and for practitioners to learn about present trends and debates in social sciences und conduct creative and fresh interdisciplinary research to discuss common encounters and brainstorm innovative solutions this book includes twelve chapters which are divided into four sections related to the disciplines of international relations politics history and law the chapters are written with different depth and quality they demonstrate the validity which the social science can stimulate our understanding and anticipation of our world
