notable advances resulting from new research findings measurement approaches widespread uses of the internet and increasingly sophisticated approaches to sampling and polling have stimulated a new generation of attitude scholars this extensively revised edition captures this excitement while remaining grounded in scholarly research attitudes and opinions 3 e maintains one of the main goals of the original edition breadth of coverage the book thoroughly reviews both implicit and explicit measures of attitudes the structure and function of attitudes the nature of public opinion and polling attitude formation communication of attitudes and opinions and the relationship between attitudes and behaviors as well as theories and research on attitude change over 2 000 references support the book s scientific integrity the authors second goal is to demonstrate the relevance of the topic to people s lives subsequently the second part of the book examines many of the topics and research findings that are salient in the world today political and international attitudes including terrorism voting behavior racism and prejudice sexism and gender roles and environmental attitudes this thoroughly revised new edition

features an entirely new chapter on implicit measures attitudes a new chapter on environmental attitudes updated opinion poll data throughout the book additional material on time trends in attitudes about many issues and expanded updated sections on international attitudes reflecting the events of 9 11 and the subsequent invasions of afghanistan and iraq attitudes and opinions broad and interdisciplinary perspective makes this an ideal text in courses on attitudes public opinion survey research or persuasion taught in a variety of departments including psychology communication marketing sociology and political science

this book provides a comprehensive guide to the study of attitudes and opinions relating the two to the processes of social perception and social cognition demonstrating the relevance of attitudes and opinions to people s lives and key concerns the author discusses only those principles and research findings relevant to citizens today

in this 2002 volume political psychologists take a hard look at political psychology they pose and then address the kinds of tough questions that those outside the field would be inclined to ask and those inside should be able to answer satisfactorily not everyone will agree with the answers the authors provide and in some cases the best an author can do is offer well grounded speculations nonetheless the chapters raise questions that will lead to an improved political psychology and will generate further discussion and research in the field the individual chapters are organised around four themes part i tries to define political psychology and provides an overview of the field part ii raises questions about theory and empirical methods in political psychology part iii contains arguments ranging from the position that the field is too heavily psychological to the view that it is not psychological enough part iv considers how political psychologists might best connect individual level mental

processes to aggregate outcomes

this book examines how judicial reform can be effectively assessed through a procedural justice approach it provides a practical framework for assessment of judicial reform examining a successful reform in chile through large scale surveys and longitudinal research judicial reform is a key element to democratization and modernization processes in the developing world practitioners have struggled with ways to analyze the effects of judicial reform and to define success procedural justice theorists propose that people will obey the law if they consider it fair this affects willingness to collaborate with the police and the courts and the general approach that the public has towards social regulations judicial reforms such as criminal procedure reforms which explicitly guarantee the development of a fairer judicial process represent a scenario that puts these theoretical assumptions to the test with policy recommendations and applications for international judicial reform this book tests the real conditions of a procedural justice approach with empirical assessment and analysis with implications for latin america and countries undergoing judicial or political reforms worldwide this book will be an important resource for researchers policy makers and all those interested in the analysis of judicial reforms democratization processes and the psychology of justice

hunyady provides a summary of unique data from a series of 14 substantial surveys from the mid 1960s through to 1994 on how hungarians viewed themselves and others
