the monograph is devoted to a crucial point of christian theology its development from the short formulae of the gospel euangelion as the first reflected expressions of christian faith to the theology of literary gospels as texts that evoked the idea of christian canon as a counterpart of the law and prophets in the formulae of the oral gospel the apocalyptic expectations are adapted into a doubled or split eschatology the messiah has appeared but the messianic reign is still the object of expectation the

experience with jesus post easter impact has been named as resurrection of which god was the subject since the apocalyptic resurrection applied for many or all people the resurrection of jesus became a guarantee of hope the last chapters analyze the role of the oral gospel in shaping the earliest literary gospel mark this book analyses gospels as texts that re introduced jesus traditions into the christian liturgy and literature concluding paragraphs are devoted to the titles of the individual gospels and to the origins of the idea of christian canon

in this book konstantinos komaitis identifies a tripartite problem intellectual institutional and ethical inherent in the domain name regulation culture using the theory of property komaitis discusses domain names as sui generis e property rights and analyses the experience of the past ten years through the uniform domain name dispute resolution policy udrp and the anticybersquatting consumer protection act acpa the institutional deficit he identifies generates a further discussion on the ethical dimensions in the regulation of domain names and prompts komaitis to suggest the creation of an environment based on justice the relationship between trademarks and domain names has always been contentious and the existing institutions of the udrp and acpa have not assisted in alleviating the tension between the two identifiers over the past ten years the trademark community has been systematic in encouraging and promoting a culture that indiscriminately considers domain names as secondclass citizens suggesting that trademark rights should have priority over the registration in the domain name space komaitis disputes this assertion and brings to light the injustices and the trademark oriented nature of the udrp and acpa he queries what the appropriate legal source to protect registrants when not seeking to promote trademark interests is he also delineates a legal hypothesis on their nature as well as the steps of their institutionalisation process that we need to reverse seeking to create a just framework for the regulation of domain names finally he explores how the current policies contribute to the philosophy of domain names as second class citizens with these questions in mind komaitis suggests some recommendations concerning the reconfiguration of the regulation of domain names
