the model contract for oil and gas development known as the production sharing
 contract psc originated in indonesia in 1966 and enjoyed over a decade of
 successful implementation with minor adjustments in several oil producing countries
 in more recent years however numerous problems have arisen as changes in
 economic realities have driven the level of private investment down this penetrating
 study the only one of its kind uses legal analysis as well as historical data to
 pinpoint the reasons for the initial success of the psc and for its subsequent and
 persistent frustrations for investors the author first examines the original indonesian
 contract along with the variants adopted in malaysia and the people s republic of
 china and then proceeds to an in depth analysis of the main clauses and their
 amendments and execution in all three countries taking into account various
 commissioned surveys and emerging policies and strategies espoused by both
 governments and industry representatives he concludes with a detailed proposal for
 an overhauled contract that allows for meaningful adjustments or even renegotiation
 when the balance of interests between parties changes substantially focusing as it
 does on some central issues in global economic development the indonesian

production sharing contract will be of great value to lawyers multinational corporate executives and policymakers far beyond the asia pacific region
