fidic contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions both common law and civil law for any construction project the general conditions of contract published by fidic need to be supplemented by particular conditions that specify the specific requirements of that project subject to the relevant laws fidic contracts in asia pacific provides readers with detailed guidance and resources for the preparation of the particular conditions that will comply with the requirements of the applicable laws for a number of the jurisdictions in

which fidic contracts are used the laws that apply to the governing law of the contract construction works and dispute resolution in each jurisdiction are identified this book offers chapters on the fidic conditions of contract for underground works and the perspective of a bilateral aid agency on the use of fidic contracts each jurisdiction features an outline of its construction industry and information on the impact of covid 19 on both the execution of construction projects and the operation of construction contracts this book is essential reading for construction professionals lawyers and students of construction law using fidic contracts

fidic contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions both common law and civil law for any construction project the general conditions of contract published by fidic need to be supplemented by particular conditions that specify the specific requirements of that project the international application of fidic contracts a practical guide provides readers with detailed guidance and resources for the preparation of the particular conditions that will comply with the requirements of the applicable laws that apply to the site where the work is carried out and for the governing law of the contract for a number of the jurisdictions in which fidic contracts are used this book is essential reading for construction professionals lawyers and students of construction law

carbon markets are developing and expanding around the world but how and to what extent is their design shaped by learning and interaction between them how do these markets function and what is the role of design carrying out a ground breaking analysis of their design and diffusion this book covers all the major carbon market systems and processes around the world the eu rggi california tokyo new zealand australia china south korea and kazakhstan it offers a systematic in depth discussion and comparison of the key design features in these systems with expert contributors exploring how and to what extent these features have been shaped by central policy diffusion mechanisms and domestic politics by focussing on the specific design features of the instruments used this volume makes important contributions to diffusion theory highlighting how ets diffusion processes more often have resulted in design divergence than convergence and discussing the implications of this finding for the vision of linked systems in the post paris era it will be of significant interest to a broad audience interested in the emergence evolution functioning and interaction of carbon markets

in the mid 2000s it seemed that the global carbon market would take off and spark the worldwide transition to a profitable low carbon economy a decade on the experiment in carbon trading is failing carbon market schemes have been plagued by problems and resistance to carbon pricing has come from the political left and right in the australian case a national emissions trading scheme ets was dismantled after a long bitter public

debate the replacement direct action plan is also in disrepute pricing carbon in australia examines the rise and fall of the ets in australia between 2007 and 2015 exploring the underlying contradictions of marketised climate policy in detail through this and other international examples the book offers a critique of the political economy of marketised climate policy exploring why the hopes for global carbon trading have been dashed the australian case is interpreted in light of a broader legitimization crisis as state strategies for temporarily displacing the climate crisis continue to fail importantly in the wake of carbon market failure alternative agendas for state action are emerging as campaigns for the retrenchment of fossil fuel assets and for just renewable energy transition continue transforming climate politics and policy as we know it this book is a valuable resource for practitioners and academics in the fields of environmental policy and politics and social movement studies

written by an engineer and construction lawyer with many years of experience the application of contracts in engineering and construction projects provides unique and invaluable guidance on the role of contracts in construction and engineering projects compiling papers written and edited by the author it draws together a lifetime of lessons learned in these fields and covers the topics a practicing professional might encounter in such a project developed in bite sized chunks key topics included are the engineer and the contract the project and the contract avoidance and resolution of disputes forensic engineers and expert witnesses and international construction contracts the inclusion of numerous case studies to illustrate the importance of getting the contract right before it is entered into and the consequences that may ensue if this is not done makes the application of contracts in engineering and construction projects essential reading for construction professionals lawyers and students of construction law

climate change is the hottest topic of the twenty first century and the climate movement a significant global social movement this book examines the broad context of australian

climate politics and the place of the climate movement within it acting from above are the most powerful forces corporations and governments both labor and coalition with the media framing the issues climate movement actors in the middle include the Australian Greens major environmental and climate organisations think tanks academics public intellectuals and the union movement acting from below are the numerous local climate action groups and various regional and national networks this lowest level is the primary location of the climate movement and grassroots mobilisation the source of its vitality to advocate a safe climate and climate justice the book ends by offering a vision for an alternative Australia based upon the principles of social equity and environmental sustainability

climate change will bring great suffering to communities individuals and ecosystems those least responsible for the problem will suffer the most justice demands urgent action to reverse its causes and impacts in this provocative new book Paul G Harris brings together a collection of original essays to explore alternative innovative approaches to understanding and implementing climate justice in the future through investigations informed by philosophy politics sociology law and economics this research agenda reveals how climate change is a matter of justice and makes concrete proposals for more effective mitigation

this study analyses the politics of climate policy in a range of affluent democracies and at EU level in order to identify political strategies that would make it easier for governments to make major cuts in greenhouse gas emissions without sustaining significant political damage

on December 23 1996 Sophie Toscani du Plantier was found murdered at her estate in Toormore Ireland seventeen years later despite multiple testimonies and a suspect the case remains unsolved while the case continues to be investigated in France the victim's relatives have come forward with a new testimony they also denounce the negligence of Irish institutions and the long standing passivity of their counterparts in France despite the shortcomings of the investigation and the denial of justice they are trying to reconstruct the facts in the hope that the truth will finally come out

the handbook of global oral history inspires the reader to be more open in their conception of what oral history is and how it is applied within a variety of disciplines to unlock meaning in human experience the book brings together scholars from around the world in the areas ranging from memory studies indigenous history and journalism to anthropology trauma and archival studies their essays provide fresh theoretical insights to the field of oral history and broaden current notions of how oral history fieldwork can be applied and how archived interviews can be interpreted contributors Nēpia Mahuika John Waiko David Carey Jan Jansen Dr Sumallya Mukhopadhyay Pothiti

at a time when many alliances are being called into question this volume considers the  
present and historical realities of the global u s alliance network ironclad contributes to  
the scholarly political and policy debate on alliance theory examining the theoretical  
underpinnings of why states align the effects of nuclear weapons on alliance alignment  
and the implications of the cyber domain for alliances ironclad further informs the  
reader on the practice of alliance management in the twenty first century with studies of  
the u s alliance system in asia and europe sure to be of use to scholars students and  
policy practitioners alike ironclad is a definitive examination of the value and role of  
alliances in the twenty first century

for decades the world s governments have struggled to move from talk to action on  
climate many now hope that growing public concern will lead to greater policy  
ambition but the most widely promoted strategy to address the climate crisis the use of  
market based programs hasn t been working and isn t ready to scale danny cullenward  
and david victor show how the politics of creating and maintaining market based  
policies render them ineffective nearly everywhere they have been applied reforms can  
help around the margins but markets problems are structural and won t disappear with  
increasing demand for climate solutions facing that reality requires relying more heavily  
on smart regulation and industrial policy government led strategies to catalyze the  
transformation that markets promise but rarely deliver

this book addresses the difficult decisions in the life of law students graduates and  
young law professionals in deciding the area of legal practice to pursue as a career the  
number of legal fields and subfields is over one hundred making it virtually impossible  
for an upcoming lawyer to explore all of these career avenues many students finish law  
school with little understanding of what specific law careers involve for example or  
what sports or space lawyers routinely do this book highlights the time consuming  
nature of law education and training that causes a lack of experience in legal fields as  
being able to successfully determine the right legal profession for the student finding a  
law career that is a significant source of satisfaction is a function of serious thinking  
and active research which the current university to legal practice does not facilitate this  
book is a practical guide for any student or current lawyer who is deciding and  
evaluating their future legal profession

while americans are generally aware of china s ambitions as a global economic and military superpower few understand just how deeply and assertively that country has already sought to influence american society as the authors of this volume write it is time for a wake up call in documenting the extent of beijing s expanding influence operations inside the united states they aim to raise awareness of china s efforts to penetrate and sway a range of american institutions state and local governments academic institutions think tanks media and businesses and they highlight other aspects of the propagandistic discourse war waged by the chinese government and communist party leaders that are less expected and more alarming such as their view of chinese americans as members of a worldwide chinese diaspora that owes undefined allegiance to the so called motherland featuring ideas and policy proposals from leading china specialists china s influence and american interests argues that a successful future relationship requires a rebalancing toward greater transparency reciprocity and fairness throughout the authors also strongly state the importance of avoiding casting aspersions on chinese and on chinese americans who constitute a vital portion of american society but if the united states is to fare well in this increasingly adversarial relationship with china americans must have a far better sense of that country s ambitions and methods than they do now

an updated and extended edition of the bestselling biography of one of the most talented poised and respected australian politicians what simons has excavated from the background of this extraordinary australian should be cause for great pride and celebration mandy sayer the weekend australian senator penny wong is an extraordinary australian politician resolute self possessed and a penetrating thinker on subjects from climate change to foreign affairs she is admired by members of parliament and the public from across the political divide in this first ever biography of wong acclaimed

journalist margaret simons traces her story from her early life in malaysia to her student activism in adelaide her time in the turbulent rudd and gillard governments her key role as a voice of reason in the campaign to legalise same sex marriage and a new chapter on her elevation to the post of foreign minister in the albanese government what emerges is a picture of a leader for modern australia a cool headed and cautious yet charismatic figure of piercing intelligence with a family history linking back to australia s colonial settlers and to the asia pacific drawing on exclusive interviews with penny wong and her labor colleagues parliamentary opponents and close friends and family this is a scintillating insight into an australian politician without precedence shortlisted 2021 national biography award longlisted 2020 walkley book awards longlisted 2020 australian book industry awards biography book of the year a readings best australian nonfiction book of 2019 it can be difficult to write entertainingly about the day to day slog of politics but simons author of two fine novels and a lauded biography of malcolm fraser is a skilled storyteller who weaves a compelling narrative notable for its clarity and pace the monthly we should all be grateful that simons has given us this clear well researched and comprehensive biography australian book review
