in 2012 the pew research center issued a report that named asian americans as the highest income best educated and fastest growing racial group in the united states despite this seemingly optimistic

conclusion over thirty asian american advocacy groups challenged the findings as many pointed out the term asian american itself is complicated it currently denotes a wide range of ethnicities national origins and languages and encompasses a number of significant economic and social disparities in redefining race sociologist dina g okamoto traces the complex evolution of this racial designation to show how the use of asian american as a panethnic label and identity has been a deliberate social achievement negotiated by members of this group themselves rather than an organic and inevitable process drawing on original research and a series of interviews okamoto investigates how different asian ethnic groups in the u s were able to create a collective identity in the wake of the civil rights movement in the 1960s okamoto argues that a variety of broad social forces created the conditions for this developing panethnic identity racial segregation for example shaped how asian immigrants of different national origins were distributed in similar occupations and industries this segregation of asians within local labor markets produced a shared experience of racial discrimination which encouraged asian ethnic groups to develop shared interests and identities by constructing a panethnic label and identity ethnic group members took part in creating their own collective histories and in the process challenged and redefined current notions of race the emergence of a panethnic racial identity also depended somewhat paradoxically on different groups organizing along distinct ethnic lines in order to gain recognition and rights from the larger society according to okamoto these ethnic organizations provided the foundation necessary to build solidarity within different asian origin communities leaders and community members who created inclusive narratives and advocated policies that benefited groups beyond their own were then able to move these discrete ethnic organizations toward a panethnic model for example a number of ethnic specific organizations in san francisco expanded their services and programs to include other ethnic group members after their original constituencies dwindled a laotian organization included refugees from different parts of asia a japanese organization began to advocate for south asian populations and a chinese organization opened its doors to filipinos and vietnamese as okamoto argues the process of building ties between ethnic communities while also recognizing ethnic diversity is the hallmark of panethnicity redefining race is a groundbreaking analysis of the processes through which group boundaries are drawn and contested in mapping the genesis of a panethnic asian american identity okamoto illustrates the ways in which concepts of race continue to shape how ethnic and immigrant groups view themselves and organize for

representation in the public arena

largely as a result of multiracial activism the u s census for 2000 offers people the unprecedented opportunity to officially identify themselves with more than one racial group among asian heritage people in this country and elsewhere racial and ethnic mixing has a long but unacknowledged history according to the last u s census nearly one third of all interracial marriages included an asian descent spouse and intermarriage rates are accelerating this unique collection of essays focuses on the construction of identity among people asian descent who claim multiple heritages in the u s discussions of race generally center on matters of black and white asian americans usually figure in conversations about race as an undifferentiated ethnic group or as exotic eurasians the contributors to this book disrupt the standard discussions by considering people of mixed asian ethnicities they also pay particular attention to non white multiracial identities to decenter whiteness and reflect the experience of individuals or communities who are considered a minority within a minority with an entire section devoted to the asian diaspora the sum of our parts suggests that questions of multiracial and multiethnic identity are surfacing around the globe this timely and provocative collection articulates them for social scientists and students
