this much needed textbook examines the multiple dimensions to corporate

responsibility it creates a framework that presents a historical and interdisciplinary overview of the field a summary of different management approaches and a review of the key actors and trends worldwide the authors take a critical perspective and successfully provide a balance between theory and practice they offer comprehensive coverage of the subject combining an insightful interdisciplinary approach with the pedagogy and support sought after by students an online resource centre accompanies the text comprising weblinks new legislation further reading email listservs and links to courses for students and case studies and essay questions for lecturers

aaron kuntz challenges qualitative researchers to reconceptualize methodological work away from the technocratic toward an intervention for progressive social change inviting creativity and vision and featuring studies that have incorporated these characteristics he insists that the responsible methodologist become a force akin to parrhesia foucault s risky truth tellers

the code of federal regulations is the codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government

contemporary companies are expected to behave ethically and responsibly toward their stakeholders and to provide social and environmental good key stakeholder groups including employees consumers investors and public authorities increasingly demand that companies deliver products and services in responsible yet economically sound manners and act in accordance with moral obligations and financial requirements such mounting societal expectations and institutional pressures relate to complex concerns including environmental and climate impact working conditions and human rights both locally and overseas in this context as companies now appear to commit to comprehensively tackle ethical social environmental and economic challenges concerns increasingly are raised as to whether most companies in the end can indeed contribute to societal and environmental good and transform how they operate to create value responsibly considering the success and impact of so called corporate social responsibility or sustainability policies in recent decades while some companies have advanced on their social and environmental responsibility journey other companies have engaged in ethical social and environmental initiatives in manipulative and insincere way or merely as a rhetorical tool to maintain legitimacy together with governments and business partners these companies are largely failing to deliver for society and the environment subsequently more than ever before understanding what it means to do business responsibly and how business actors can engage constructively in

ways that support the development of resilient business practices forms and organizations that contribute to generate positive impact for society and the environment and generate the type of economic value needed to address the key challenges of this century is central on this background this edited volume sheds light on different crucial themes and approaches spanning historical conceptual operational critical practical and prospective considerations that have animated the field of business and society in the last decades and that are instrumental or have the potential to drive constructive research discussions and business efforts the central aim of the book is to set the research agenda for the next five to seven years to redefine existing areas within the context of international research and to highlight emerging research areas in need of further investigation representing a prestige reference work providing an overview of the subject area of responsible business primarily for academics researchers postgraduate students as well as reflective practitioners

academic paper from the year 2013 in the subject pedagogy the teacher educational leadership grade a language english abstract the profession of a teacher always has a double ethical dimension on the one hand as a transmitter of knowledge he is responsible for an adequate instruction of the subjects taught by himself on the other hand as an educator he has to guide his students towards a life based on ethical and moral values and personal responsibility in a few words he has to nurture both their intellectual growth and the growth of their character whereas many countries have taken the importance of the educational task into consideration by including ethics in teacher training courses the ethical dimension of a teacher s profession is still neglected in germany where the focus is put on the methods of subject teaching as a result new teachers are unprepared to handle situations which require ethical judgement and often feel helpless when they have to take ethical decisions so the purpose of this report is to highlight the importance of including ethics in teacher training courses in order to show german professionals who are responsible for teacher education how an implementation of ethics in teacher training curricula can improve the quality of teaching and help teachers to fulfill their role as educators as a first step the meaning of ethics in education derived from a general definition of ethics is explained then based on the results of a survey the needs of novice teachers for an instruction in ethics are illustrated finally three of the main ethical topics which are relevant for teachers are described

pritchard provides a deliberate and convincing argument for a starting point for the discussion of moral development on in which self regard and empathy provide equally essential groundings for individual morality drawing essential

elements from the work of reid strawson rawls kohlberg and gilligan he builds a comprehensive framework for tracing moral development from childhood one that allows human morality to be grounded in both reason and emotion and that recognizes the importance to morality of justice and rights as well as caring and responsibility

in discussing a management topic scholars educators practitioners and the media often toss out the name of a theorist taylor simon weber or make a sideways reference to a particular theory bureaucracy total quality management groupthink and move on as if assuming their audience possesses the necessary background to appreciate and integrate the reference this is often far from the case individuals are frequently forced to seek out a hodgepodge of sources varying in quality and presentation to provide an overview of a particular idea this work is designed to serve as a core reference for anyone interested in the essentials of contemporary management theory drawing together a team of international scholars it examines the global landscape of the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses to thoughtfully apply them in addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook and like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures features and benefits two volumes containing over 280 signed entries provide users with the most authoritative and thorough reference resources available on management theory both in terms of breadth and depth of coverage standardized presentation format organized into categories based on validity and importance structures entries so that readers can assess the fundamentals evolution and impact of theories to ease navigation between and among related entries a reader s guide groups entries thematically and each entry is followed by cross references in the electronic version the reader s guide combines with the cross references and a detailed index to provide robust search and browse capabilities an appendix with a chronology of management theory allows readers to easily chart directions and trends in thought and theory from early times to the present an appendix with central management insights allows readers to easily understand compare and apply major theoretical messages of the field suggestions for further reading at the end of each entry guide readers to sources for more detailed research and discussion key themes include nature of management managing people personality and perception managing motivation managing interactions managing groups managing organizations managing environments strategic management human resources management international management and diversity managerial decision making ethics and creativity management

education research and consulting management of operations quality and information systems management of entrepreneurship management of learning and change management of technology and innovation management and leadership management and social environmental issues plus appendix of chronology of management theory plus appendix of central management insights
