we are everywhere is a whirlwind collection of writings images and ideas for direct action by people on the frontlines of the global anticapitalist movement this is a movement of untold stories because those from below are not those who get to write history even though we are the ones making it we are everywhere wrenches our history from the grasp of the powerful and returns it to the streets fields and neighbourhoods where it was made

this is a very strange world and getting stranger all the time actually it s not the world that s getting stranger it s people their minds are full of the most bizarre ideas people s beliefs are becoming weirder and weirder by the day everyone believes their own propaganda no one accepts the truth everyone makes up their own truth based on their own opinions beliefs experiences and feelings it s illiberal politically incorrect to tell people they are wrong it flies in the face of multiculturalism it seems authoritarian and fascist it seems to contradict free speech since if you tell people they are wrong you are implying you want them to stop speaking and so you do as pythagoras said be silent or say something better than silence don t expect any cure all the indicators are pointing downwards things will get a hell of a lot worse the strangeness has barely begun
