this book contributes to the discussion on the ageing society by addressing the new psycho social structures of the ageing society the problems around family bonds and ties and the structures of care and protection the book sheds light on the new roles of grandparents and new grandparents and the empowerment and resilience initiatives thereby providing a broad discussion of what the ageing society implies in psychosocial terms these issues are addressed in an interdisciplinary way but also in an approach that is also rare comparing different realities between europe and latin america the basis of the english translation of this book from its spanish original manuscript was done with the help of artificial intelligence a subsequent human revision of the content was done by the author

la pregunta que plantea este libro en su formulación general es muy simple aunque osar afrontarla parece atrevido o una ambición desmedida qué ocurre con nosotros hoy en las sociedades avanzadas evidentemente dar una respuesta es mucho menos satisfactorio sólo aclarar esta pregunta nos enfrenta a una tarea eminentemente compleja quién compone ese nosotros se trata de individuos tomados separadamente sujetos o la colectividad misma y qué es un individuo un sujeto o un colectivo nuestra

pregunta inicial deviene entonces cómo podemos interpretar los cambios que se producen en estos tiempos en nuestras sociedades llamadas avanzadas considerando sin ser exhaustivo y en desorden la tecnología el derecho la medicina la educación la cultura la economía la vida sexual y cuáles son sus consecuencias sobre las subjetividades incluso antes de eso qué son las llamadas sociedades avanzadas las del mundo occidental claro diferentes de las que aspiran a serlo o los países denominados emergentes donde siempre son prioritarios los problemas de supervivencia para la mayoría de los habitantes pero más allá de esta distinción grosera hay que convenir que la expresión abre un abanico particularmente vasto de situaciones diferentes y hoy en profunda transformación bastará evocar las evoluciones que ocurren en china para llegar a interrogar podremos considerar durante largo tiempo que buena parte de lo que enfrentan en ese país no se identifica con los problemas que nos ocupan en el nuestro se podría preguntar igualmente si la vida colectiva más allá del atlántico está organizada de la misma manera que en europa si por ejemplo la relación con lo religioso es aquí la misma que en los estados unidos o si con ciertas consideraciones la violencia constatable en méxico y las respuestas que ella suscita podrían ser leídas como anticipación de lo que está a punto de suceder en europa

hoy vivimos una verdadera contrarrevolución desde la década de 1980 en efecto los más ricos no dejaron de incrementar su porción de los ingresos y los patrimonios invirtiendo la anterior tendencia secular a la reducción de las brechas de riqueza los factores económicos y sociales que engendraron esta situación son bien conocidos pero el deterioro de la idea de igualdad también desempeñó un papel crucial al conducir insidiosamente a deslegitimar el impuesto y las acciones de redistribución por otro lado la denuncia de desigualdades experimentadas como inaceptables linda hoy con una forma de resignación y un sentimiento de impotencia por consiguiente no hay nada más urgente que refundar la idea de igualdad para salir de los atolladeros de nuestro tiempo el libro contribuye a esta empresa de una doble manera al rehacer la historia de los dos siglos de debates y de luchas sobre la cuestión en primer lugar ilumina de una manera inédita la situación actual luego elabora una filosofía de la igualdad como relación social que permite ir más allá de las teorías de la justicia que de john rawls a amartya sen dominaron hasta el momento la reflexión contemporánea y muestra que la reconstrucción de una sociedad fundada en los principios de singularidad de reciprocidad y de comunalidad es la condición de una solidaridad más activa

a la transdisciplinariedad se le ha definido como una feliz transgresión de las fronteras entre las disciplinas y es en este tono en que se presenta esta obra que recopila las experiencias y reflexiones las discusiones y propuestas de una veintena de investigadores y académicos que hablan sobre o desde la transdisciplina acerca de los temas de su interés o especialidad la aproximación se da desde perspectivas académicas diversas y se adereza con expresiones estéticas que van desde la poesía hasta la pintura a través de las cuales se busca ofrecer un espacio a las rutas posibles y limitaciones connaturales de acceder a la realidad para construir conocimiento de frontera en las fronteras los abordajes son fruto de la exploración filiación encantos y desencantos por parte de los autores con la entidad de su búsqueda quienes buscan contestar entre otras las siguientes cuestiones cómo establecer un acercamiento transdisciplinar al objeto de estudio qué hace a un objeto de estudio transdisciplinar cómo impacta la transdisciplinariedad la identidad del académico una obra concebida desde una perspectiva más pedagógica que desde la doxa académica con el interés de aportar una lectura amena para las reflexiones en torno a la trasgresión de las fronteras disciplinarias iteso
