the most comprehensive book on roman burial practices now available in paperback never before available in paperback  
j m c toynbee's study is the most comprehensive book on roman burial practices ranging throughout the roman world from rome to pompeii britain

to jerusalem toynbee s book examines funeral practices from a wide variety of perspectives first toynbee examines roman beliefs about death and the afterlife revealing that few romans believed in the elysian fields of poetic invention she then describes the rituals associated with burial and mourning commemorative meals at the gravesite were common with some tombs having built in kitchens and rooms where family could stay overnight toynbee also includes descriptions of the layout and finances of cemeteries the tomb types of both the rich and poor and the types of grave markers and monuments as well as tomb furnishings

in this volume harding examines the deposition of iron age human and animal remains in britain and challenges the assumption that there should have been any regular form of cemetery in prehistory arguing that the dead were more commonly integrated into settlements of the living than segregated into dedicated cemeteries

bringing together knowledge accumulated from historical archaeological and literary sources daniell paints a vivid picture of the entire phenomenon of medieval death and burial a big contribution to medieval and early modern studies

this volume offers readers a comprehensive and vivid picture of medieval death and burial in england bringing the fascinating beliefs and rituals surrounding mortality into sharp focus death had a pervasive presence in daily medieval english life finding expression in monuments literature and art this book expertly weaves together analysis of historical archaeological and literary sources to provide a uniquely interdisciplinary look at the entire phenomenon now in its second edition daniell s book incorporates the latest findings derived from dna and isotope analysis providing readers with a case study of the discovery and results from the skeleton of richard iii new chapters examine deviant burials and the role of revenants and ghosts whilst the final chapter introduces new theories regarding the black death s transformative societal impact the heightened desire for small group structures such as nuclear families or guilds and the increased centrality of the human body in religious and artistic representation this book is of value to students scholars and anyone interested in the history of death archaeology anthropology and medieval english life and ritual

a book riot 100 must read book on ancient history death burial and the afterlife were as important to the ancient egyptians as how they lived this well illustrated book explores all aspects of death in ancient egypt including beliefs of the afterlife mummification the protection of the body tombs and their construction and decoration funerary goods and the funeral itself it also addresses the relationship between the living and the dead and the magico religious interaction of these two in ancient egyptian culture salima ikram s own experience with experimental mummification and funerary archaeology lends the book many completely original and provocative insights in addition a full survey of current development in the field makes this a unique book that combines all aspects of death and burial in ancient egypt into one volume

death had an important and pervasive presence in the middle ages it was a theme in

medieval public life finding expression both in literature and art the beliefs and procedures accompanying death were both complex and fascinating christopher daniell s approach to this subject is unusual in bringing together knowledge accumulated from historical archaeological and literary sources the book includes the very latest research both of the author and of others working in this area the result is a comprehensive and vivid picture of the entire phenomenon of medieval death and burial
