a rigorous and comprehensive account of recent democratic transitions around the world from the 1980s through the first decade of the twenty first century the spread of democracy across the developing and post communist worlds transformed the global political landscape what drove these changes and what determined whether the emerging democracies would stabilize or revert to authoritarian rule dictators and democrats takes a comprehensive look at the

transitions to and from democracy in recent decades deploying both statistical and qualitative analysis stephen haggard and robert kaufman engage with theories of democratic change and advocate approaches that emphasize political and institutional factors while inequality has been a prominent explanation for democratic transitions the authors argue that its role has been limited and elites as well as masses can drive regime change examining seventy eight cases of democratic transition and twenty five reversions since 1980 haggard and kaufman show how differences in authoritarian regimes and organizational capabilities shape popular protest and elite initiatives in transitions to democracy and how institutional weaknesses cause some democracies to fail the determinants of democracy lie in the strength of existing institutions and the public s capacity to engage in collective action there are multiple routes to democracy but those growing out of mass mobilization may provide more checks on incumbents than those emerging from intra elite bargains moving beyond well known beliefs regarding regime changes dictators and democrats explores the conditions under which transitions to democracy are likely to arise

many people take the trouble to vote even though each voter s prospect of deciding the election is nearly nil russians vote even when pervasive electoral fraud virtually eliminates even that slim chance could people vote or protest because they stop considering their own chances and start to think about an identity shared with others with this in mind discourse dictators and democrats presents a ground breaking theory of what language use does to politics

this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public to ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

voting hides a familiar puzzle many people take the trouble to vote even though each voter s prospect of deciding the election is nearly nil russians vote even when pervasive electoral fraud virtually eliminates even that slim chance the right to vote has commonly been won by protesters who risked death or injury even though any one protester could have stayed home without lessening the protest s chance of success could people vote or protest because they stop

considering their own chances and start to think about an identity shared with others if what they hear or read affects political identity a shift in political discourse might not just evoke protests and voting but also make the minority that has imposed the dictator s will suddenly lose heart during the soviet union s final years the cues that set communist discourse apart from standard russian sharply dwindled a similar convergence of political discourse with local language has preceded expansion of the right to vote in many states around the globe richard d anderson jr presents a groundbreaking theory of what language use does to politics

an examination of how dictators and democrats in indonesia malaysia and thailand built and sustained pro growth political coalitions

with the removal of not only saddam hussein but also jean betrand aristide as well as the ongoing civil war against charles taylor in liberia much has changed in the world of dictators since the first publication of this work less than a year ago drawing on his 25 years of extensive diplomatic experience ambassador palmer asks us to embrace a bold vision of a world made safe by democracy this is the story of the remaining dictators the strategy and tactics to oust them and the need to empower the people of every nation to control their own destinies

through the fall of anastasio somoza the rise of the sandinistas and the contra war the united states and nicaragua seemed destined to repeat the mistakes made by the u s and cuba forty years before the 1990 election in nicaragua broke the pattern robert pastor was a major us policymaker in the critical period leading up to and following the sandinista revolution of 1979 a decade later after writing the first edition of this book he organized the international mission led by jimmy carter that mediated the first free election in nicaragua s history from his unique vantage point and utilizing a wealth of original material from classified government documents and from personal interviews with u s and nicaraguan leaders pastor shows how nicaragua and the united states were prisoners of a tragic history and how they finally escaped this revised and updated edition covers the events of the democratic transition and it extracts the lessons to be learned from the past

this brand new edition of the us military profession into the twenty first century re examines the challenges faced by the military profession in the aftermath of the international terrorist attack on the united states on september 11 2001 while many of the issues facing the military profession examined in the first edition remain the new war and international terrorism have compounded the challenges the us military must respond to the changed domestic and

strategic landscapes without diminishing its primary function a function that now many see that goes beyond success on the battlefield not only has this complicated the problem of reconciling the military professional ethos and *raison d'être* with civilian control in a democracy it challenges traditional military professionalism this book also studies the notion of a US military stretched thin and relying more heavily on the US federal reserves and national guard these developments make the US military profession increasingly linked to public attitudes and political perspectives in sum the challenge faced by the US military profession can be termed a dual dilemma it must respond effectively to the twenty first century strategic landscape while undergoing the revolution in military affairs and transformation at the same time the military profession must insure that it remains compatible with civilian cultures and the US political social system without eroding its primary function this is an invaluable book for all students with an interest in the US military and of strategic studies and military history in general

presents opposing views on a wide variety of issues affecting Africa as a whole including development agriculture food and the environment social issues politics governance and conflict resolution
