we feel there is a better way to practice the game of football the standard way most coaches organize and conduct a practice has just been copied and pasted since the vince lombardi days quite simply we as coaches have just duplicated the practice process from our own days as a player schemes have changed players have changed and society has changed but practices for the most part have not this book will attempt to convey why s2a game practice system gps is an edge of the knife way to conduct a football practice the surface to air system s2a is an offensive consulting service this book will detail our thoughts from our offensive perspective but the principles can be applied to all three phases of the game offense defense special teams in introducing this outside the box way of looking at something new in the game of football we challenge you as a coach to take this information and determine if there's truly a better way of doing things ask yourself is the way we've been conducting practices since i was a player really the most effective way offenses have evolved the passing game has evolved and off season methods of training have evolved why hasn't practice evolved the objective of this book is to make football a better game through the utilization of s2a gps it is our specific objective to check the following boxes when developing this practice method get more kids out for football create scenarios in which players have a richer knowledge of the game create practice situations recreating game situations that lead to more success create a safer game score more points win more games again we check those boxes with our main tenant if any activity is done in practice that does not directly have an impact on the actual game we do not do it it is our sincere hope that football coaches will take from this work the following to implement a system that allows for a safer game by reducing the amount of time preparing that reduces the repetitions for contact and thus lessens the eventuality of injuries to implement a system that eliminates the need for the overuse of contact but heightens the ability for game preparedness to implement a system that captures and keeps the learning attention span of even the lowest level learner to implement a system that elevates the abilities of second and third teamers and thus increases their value to the overall makeup and depth of the squad to implement a system that elevates the practice role of each member of the

coaching staff to implement a system that leads to both recruiting more and keeping more young people playing the game to implement a system that leads to more wins
