in march 2001 the website tehelka broke operation west end the biggest undercover news story in indian journalism using spycams and masquerading as arms dealers tehelka s reporters infiltrated the indian government bribed army officers gave money to the president of the ruling party and the defence minister s close colleague right in the defence minister s residence this eventually forced both the ministers resignations in a rigorously researched and searing authentic account of the tehelka expose and its aftermath madhu trehan does a forensic study of the imperatives at the root of it the characters and heroes and villains of the story and of how the system got back by obfuscating by attempting to destroy the investors without leaving any footprints in the style of rashomon the story is related by numerous participants of the same incidents and of course none of the stories tally with exhaustive personal interviews this is a must read for anybody who wants to understand modern india or even better modern international journalism

each chapter of this volume is a contribution from an expert in the field chosen by the editors to contribute to the 1997 current issues in blood substitute research and development course given in san diego march 17 19 the contributors were selected because of their expertise in areas which the editors believe to be critical to the advancement of the field and which reflect activity in hot areas of relevant research while there is a continuity in style for the annual course each year brings changes in emphasis and content in previous years we were often not able to provide time for participants to present their views and opinions consequently this year we encouraged discussion after each presentation these sessions were recorded transcribed and are printed with the chapters herein we believe that the product is very close to the capturing this year s course in print and trust readers will enjoy reading the always candid and often provocative remarks from the audience the price paid for inclusion of the discussion transcriptions was a delay in publication each author was allowed to edit his her discussion section as well as the final version of the chapters prior to publication the changes are mainly for grammar and we tried when possible not to alter the conversational style of these interchanges

in recent years there has been rapid progress in research on vascular endothelium this has led to significant advances in our understanding of the structure and function of vascular endothelium in health and disease including such aspects as the permeability of endothelium in relation to its ultrastructural correlates theoretical basis regulatory factors and role in atherogenesis the interaction between endothelium and blood cells the endothelial release and processing of a number of important physiological agents such as eicosanoids hemostatic factors and histamine the cell biology of endothelium with respect to the cytoskeletal apparatus cell activation and cell locomotion and the role of endothelium in microcirculatory regulation in normal and pathophysiological circumstances a symposium on vascular endothelium in health and disease was held on august 5 6 1987 at the institute of biomedical sciences academia sinica taipei taiwan republic of china following the 4th world congress for microcirculation in japan experts working on various aspects of vascular endothelium came from all over the world to participate in this two day symposium and gave excellent presentations this volume embodying the proceedings of that symposium is a collection of the papers given by the speakers with in many cases further updating and new information added subsequent to the symposium the institute of biomedical sciences ibms the site of this symposium is a newly established research institution which has vascular endothelium as one of its areas of research emphasis

dr judah folkman father of angiogenesis 1933 2008 was the director of the vascular biology program andrus professor of pediatric surgery and professor of cell biology at harvard university s boston children s hospital in the 1971 issue of the new england journal of medicine he proposed the theory that tumor growth is angiogenesis dependent this premise was the basis of this field of research and has become the focus of scientists worldwide because of folkman s discovery and research the possibilities of antiangiogenic and angiogenic therapy have broadened beyond cancer to many noncancerous diseases this book represents the first collection in a volume of which dr folkman is co editor dr folkman authored nearly 400 original papers and more than 100 book chapters dr william figg is the chief of the molecular and clinical pharmacology program at the national cancer institute national institutes of health over the past 15 years his laboratory and clinic at the nci have focused on the development of angiogenesis inhibitors dr figg has published more than 380 publications
