Fiqh Mawaris Hukum Pembagian Warisan Menurut Syariat Islam Muhammad Hasbi Ash Shiddieqy Fiqh Mawaris Understanding Islamic Inheritance Law According to Muhammad Hasbi Ash Shiddieqy Islamic inheritance law known as Fiqh Mawaris is a crucial aspect of Islamic jurisprudence Fiqh It meticulously outlines the distribution of an individuals estate after their death ensuring fairness and justice among heirs according to the divine guidance found in the Quran and Sunnah the Prophet Muhammads teachings and practices Scholar Muhammad Hasbi Ash Shiddieqy a prominent figure in contemporary Islamic scholarship has significantly contributed to the understanding and interpretation of Fiqh Mawaris This article explores the key principles of Islamic inheritance law as understood through his work offering a balanced approach between depth and accessibility Core Principles of Fiqh Mawaris The Quran explicitly addresses inheritance detailing the shares allocated to various heirs Ash Shiddieqys interpretations emphasize the following core principles Divine Mandate The rules of inheritance are divinely ordained not subject to human modification They are based on the verses of the Quran and the authentic traditions of the Prophet Muhammad This underscores the sacred nature of the process and its importance in maintaining societal harmony Equity and Justice The system aims for a just and equitable distribution of wealth preventing undue concentration of wealth in the hands of a few It considers the varying degrees of kinship and societal roles to determine inheritance shares Prioritization of Blood Relations Close blood

relatives are prioritized in the inheritance process. The closer the relationship, the larger the share allocated. This reflects the importance of family bonds within Islamic society.

Protection of Vulnerable Heirs: Specific provisions are made to protect the interests of women, minors, and the disabled, ensuring their financial security. This compassionate approach is a defining characteristic of Islamic inheritance law.

Hierarchical Distribution: Inheritance shares are distributed in a specific hierarchical order, with certain heirs taking precedence over others. This system ensures a clear and systematic process, minimizing disputes.

Determining Heirs and their Shares: A Step-by-Step Approach

Understanding the distribution of inheritance requires a systematic approach. Ash Shiddieqy's work highlights the importance of identifying the heirs correctly and calculating their respective shares according to the established rules.

- 1. Identifying the Deceased's Heirs:** This involves determining all the individuals entitled to inherit based on their relationship to the deceased. This includes spouses, children (both sons and daughters), parents, siblings, grandparents, and other relatives, adhering to specific rules of kinship.
- 2. Classifying Heirs:** Heirs are categorized into several classes, e.g., *asabah* (dhawī alfurūd), etc., based on their kinship and eligibility for inheritance. *Asabah* refers to male heirs who inherit the residual share after the fixed shares of *dhawī alfurūd* heirs with fixed shares are distributed. This classification is critical for accurate share calculation.
- 3. Calculating Fixed Shares (Furūd):** The Quran explicitly specifies the fixed shares for certain heirs, like spouses, daughters, and parents. These shares are calculated based on fractions, e.g., $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{8}$, $\frac{1}{4}$.
- 4. Distributing the Residual Share (Asabah):** After the fixed shares are distributed, any remaining portion of the inheritance is allocated to the *asabah* heirs based on their degree of kinship. The rules for distributing the residual share are complex and require careful consideration of the specific kinship relationships involved.
- 5. Dealing with Special Cases:** Numerous special cases are addressed in Islamic jurisprudence, such as cases of disinheritance due to specific reasons detailed in the Quran and Sunnah, the impact of predeceased heirs, substitution, and complexities arising from multiple marriages and blended families. Ash Shiddieqy's interpretations shed

light on these intricate situations Understanding the Role of Wasayah Bequest Islamic law allows for a testamentary disposition known as wasayah or bequest This allows the deceased to bequeath up to onethird of their estate to anyone they choose However this bequeathment must not violate the rights of the compulsory heirs Ash Shiddieqy emphasizes the limits on bequest to ensure that the compulsory heirs receive their rightful shares 3 Resolving Disputes in Inheritance Disputes over inheritance are unfortunately common Ash Shiddieqys interpretations provide guidance on resolving such conflicts emphasizing the importance of amicable settlements through mediation and arbitration Islamic law encourages reconciliation and strives to prevent protracted legal battles However if amicable resolutions fail recourse to Islamic courts Sharia courts may be necessary Key Takeaways from Ash Shiddieqys Approach Emphasis on the Quran and Sunnah as the primary sources of Islamic inheritance law Detailed explanation of the intricate calculations and classifications of heirs Comprehensive treatment of special cases and complexities in inheritance distribution Importance of justice equity and the protection of vulnerable heirs Guidance on resolving inheritance disputes through amicable settlements or Islamic courts Frequently Asked Questions FAQs 1 What happens if someone dies without a will In Islamic law the absence of a will doesnt invalidate the inheritance process The distribution will follow the prescribed rules of Fiqh Mawaris based on the kinship relationships of the deceased 2 Can a Muslim disinherit a child Under specific circumstances the Quran allows for the disinheritance of a child but this is heavily restricted and only justified in cases of severe wrongdoing by the child towards the parent 3 How does Islamic inheritance law differ from other legal systems Islamic inheritance law is unique in its divine origin and emphasis on specific shares for certain heirs based on their kinship Other legal systems often allow for greater testamentary freedom 4 What is the role of a Wali guardian in inheritance matters A Wali plays an important role especially in the case of minors or those lacking legal capacity They are responsible for managing the inheritance on behalf of the beneficiaries until they reach maturity or regain capacity 5 Where can I find more resources on Fiqh

Mawaris according to Ash Shiddieqys 4 interpretations Exploring scholarly works referencing Ash Shiddieqys writings on Islamic jurisprudence specifically those dealing with inheritance would be a good starting point Consulting with knowledgeable Islamic scholars and legal experts is also highly recommended Many online resources and libraries offer relevant texts in Arabic and translated versions This article provides a general overview of Fiqh Mawaris according to the interpretations of Muhammad Hasbi Ash Shiddieqy The complexities of Islamic inheritance law require indepth study and consultation with knowledgeable scholars for accurate application in specific cases This article serves as an introduction to facilitate a better understanding of this important area of Islamic jurisprudence
