in his seminal works megatrends and megatrends 2000 john naisbitt proved himself one of the most far sighted and accurate observers of our fast changing world mind set goes beyond that by disclosing the secret of forecasting naisbitt gives away the keys to the kingdom opening the door to the insights that let him understand today s world and see the opportunities of tomorrow he selects his most effective tools 11 mindsets and applies them by guiding the reader through the five forces that will dominate the next decades of the twenty first century illustrated by stories about galileo and einstein to today s icons and rebels in business science and sports mind set opens your eyes to see beyond media headlines political slogans and personal opinions to select and judge what will form the pictures of the future

splendidly readable and hugely informative episode after episode from the cultural life of the twentieth century springs to vivid life boston globe from freud to babbitt from animal farm to sartre to the great society from the theory of relativity to counterculture to kosovo the modern mind is encyclopedic covering the major writers artists scientists and philosophers who produced the ideas by which we live peter watson has produced a fluent and engaging narrative of the intellectual tradition of the twentieth century and the men and women who created it watson s rich narrative covers every corner of intellectual life in the twentieth century publishers weekly packed with a multitude of events ideas and influential people watson s infectious writing carries the reader swiftly along this book will be read and consulted for many years library journal enthralling illuminating and intellectually titillating booklist

a well written compendious and deeply researched history of psychoanalysis from the 1880s until world war ii the journal of modern

history in a sweeping narrative george makari demonstrates how a new way of thinking about inner life coalesced and won followers who spread this body of thought throughout the west along the way he introduces the reader to a fascinating array of characters many of whom have been long ignored or forgotten amid great ferment sigmund freud emerged as a creative interdisciplinary thinker who devised a riveting new theory of the mind that attracted acolytes from the very fields the viennese doctor had mined for his synthesis these allies included eugen bleuler carl jung and alfred adler all of whom eventually broke away and accused the freudian community of being unscientific makari reveals how in the wake of these crises innovators like sándor ferenczi wilhelm reich melanie klein and others reformed psychoanalysis which began to gain wide acceptance only to be banished from the continent and sent into exile due to the rise of fascism groundbreaking insightful and compulsively readable revolution in mind goes beyond myth and polemic to give us the story of one of the most controversial intellectual endeavors of the twentieth century

to ruin a man s life once takes a regrettable mistake to do so twice takes a woman like julianne baxter eleven months ago julianne s statement to the authorities wrongly implicated patrick the new earl of haversham in his older brother s death the chit is as much trouble as her red hair suggests and just as captivating now she has impetuously tracked him to the wilds of scotland insisting that he return home to face a murder charge and save his family from ruin a clandestine wedding may be the only way to save her reputation and his neck from the hangman s noose julianne has no objection to the match more and more she s convinced of patrick s innocence though when it comes to igniting her passions the man is all too guilty and if they can only clear his name a marriage made in haste could bring about the most extraordinary pleasure

this ground breaking book is about the emerging academic and practical study of subtle energies which historically have not been easy to detect the unique experiments numerous measurements and resulting data presented here have been collected over 30 years of research the findings have resulted from pioneering discoveries leading to equations graphs universal constants formulae and laws of nature that eventually connect to cosmology and the structure of the universe the book proves with high scientific and mathematical precision that consciousness involves more than just the brain but actually depends on the very fabric of the universe some of the discoveries prove that certain information can be communicated across the solar system not only faster than light but instantaneously the book deals with the entanglement of large objects and the fact that the cosmos possesses a universal consciousness also shown is that the mind can detect information from the outer planets and identifies connections to a five dimensional universe and the mysterious recently discovered dark energy this text will be of interest to the considerable number of people worldwide involved in similar studies these include researchers at universities and colleges currently or wishing to teach and develop this up and coming subject non professionals and members of relevant academic societies

religious exoticism implies a deeply ambivalent relationship to otherness and to religion itself traditional religious teachings are uprooted and fragmented in order to be appropriated as practical methods for personal growth western contemporary societies have seen the massive popularization of such exotic religious resources as yoga and meditation shamanism buddhism sufism and kabbalah véronique altglas shows that these trends inform us about how religious resources are disseminated globally as well as how the self is constructed in society she uses two case studies the hindu based movements in france and britain that started in the 1970s and the kabbalah centre

in france britain brazil and israel she draws upon major qualitative and cross cultural empirical investigations to conceptualize religious exoticism and offer a nuanced and original understanding of its contemporary significance from yoga to kabbalah broadens scholarly understanding of the globalization of religion how religions are modified through cultural encounters and of religious life in neoliberal societies
