nowhere does the ceaseless struggle to maintain democracy in the face of political corruption come more alive than in paul preston s magisterial history of modern spain the culmination of a half century of historical investigation a people betrayed is not only a definitive history of modern spain but also a compelling narrative that becomes a lens for understanding the challenges that virtually all democracies have faced in the modern world whereas so many twentieth century spanish histories begin with franco and the devastating civil war paul preston s magisterial work begins in the late nineteenth century with spain s collapse as a global power especially reflected in its humiliating defeat in 1898 at the hands of the united states and its loss of colonial territory this loss hung over spain in the early years of the twentieth century its agrarian economic base standing in stark contrast to the emergence of england germany and france as industrial powers looking back to the years prior to 1923 preston demonstrates how electoral corruption infiltrated almost every sector of spanish life thus excluding the masses from organized politics and giving them a bitter choice between apathetic acceptance of a decrepit government or violent revolution so ineffective was the republic which had been launched in 1873 that it paved the way for a military coup and dictatorship led by miguel primo de rivera in 1923 exacerbating widespread profiteering and fraud when rivera was forced to resign in 1930 his fall brought forth a succession of feeble governments stoking rancorous tensions that culminated in the tragic spanish civil war with astonishing detail preston describes the ravages that rent spain in half between 1936 and 1939 tracing the frightening rise of francisco franco preston

recounts how franco grew into spain s most powerful military leader during the civil war and how after the war he became a fascistic dictator who not only terrorized the spanish population through systematic oppression and murder but also enriched corrupt officials who profited from severe economic plunder of spain s working class the dictatorship lasted through world war ii during which spain sided with mussolini and hitler and only ended decades later in 1975 when franco s death was followed by a painful yet bloodless transition to republican democracy yet as preston reveals corruption and political incompetence continued to have a corrosive effect on social cohesion into the twenty first century as economic crises catalan independence struggles and financial scandals persist in dividing the country filled with vivid portraits of politicians and army officers revolutionaries and reformers and written in the absorbing economist style for which preston is so revered a people betrayed is the first historical work to examine the continuities of political unrest and national anxiety in spain up until the present providing a chilling reminder of just how fragile democracy remains in the twenty first century

la tesis de la investigadora defendida en 2017 en la universidad de deusto y dirigida por los profesores felipe gómez isa y carlos martín beristain analiza el que califica de conflicto olvidado del sahara occidental desde la perspectiva de los derechos humanos abordando en particular el delito de desaparición forzada para ello la autora que formó parte del equipo de trabajo de la investigación que desembocó en el oasis de la memoria analiza en detalle 95 casos de desaparición forzada 86 de ellos recogidos en dicha publicación y los nueve restantes en meheris la esperanza posible la investigadora indica que es necesaria una voluntad política real por transformar la realidad y romper con el pasado de violaciones de derechos humanos y denuncia que no se haya respetado el derecho de las víctimas a la verdad los resultados del trabajo según apunta lópez se espera que sirvan para que las personas afectadas puedan defender sus derechos ante las instancias internacionales y la audiencia nacional española

this book is derived from selected papers from the fourteenth international congress on mathematical education topic study group 12 teaching and learning statistics it describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as brazil chile columbia denmark germany the netherlands spain sweden thailand turkey the united kingdom and the united states the book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries because it contains specific examples of the research for example on the ways children learn the choice and

implementation of tasks or the role of informal inference the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers
