this book is about getting what you want by relaxing more more specifically this book will show you the necessity of

relaxing in order to get what you want the unusual recommendations on the following pages are practical suggestions that you can start using immediately whatever you are looking for in life whether it s more money improved health better relationships more free time a greater sense of well being or a fancier car you ll often get it faster if you try less obviously this isn t the normal way we think about how to acquire what we want our first inclination is always to try harder if we deeply desire something we think we must work hard and put in a lot of effort in order to make our desires come to fruition but the truth of the matter is that trying hard does not work well for most people the majority of us who try hard to improve our lives still don t get what we really want we want to get better things in our life we try very hard to get them and our best intentions still manage to get screwed up i can t begin to tell you how many times i have tried hard and still managed to fail in reaching my goal it s nothing to be embarrassed about it s just the truth most of the time trying so hard really doesn t get us what we hope it will so here s a logical question what would happen if we stopped trying so hard what if there s an easier way to receive what we want in life what if we allow ourselves instead of trying hard to relax with more consistency the surprising answer is that by relaxing more we can immediately start to feel wealthy within ourselves and from there an even more stunning development occurs our new sense of self wealth miraculously starts to manifest itself in our outer world in short we can get more of what we want in life simply by relaxing more by allowing ourselves to relax we begin to naturally fall into a state of subtle gratitude and humility similarly relaxation fills us with strong feelings of peaceful resignation of momentarily not seeking or wanting anything in such a comfortable state of not trying ironically we become the human definition of natural wealth and are much more capable of receiving what we desire relaxing in such a way doesn t have to involve specifically thinking about or imagining having lots of money or living some kind of luxurious lifestyle we can imagine having lots of money if we want to but deep mental relaxation is more subtle encompassing and effective than just thinking about money or anything else you may want we re naturally and profoundly abundant when we re deeply relaxed if we feel more relaxed our life can literally start taking care of itself minus all the stressful effort attempting to try so hard to meet our goals is largely a cultural affect that we can decide to discard relaxation is the opposite of struggle we don t try to relax we surrender to peaceful feelings of relaxation this book is to be used pragmatically take advantage of it however you like come back to it as many times as you want and enjoy the material relaxation is something worth knowing about and it can change your life
