books about construction contracts tend to be dense and wordy but what most architects quantity surveyors project managers builders and employers are looking for is an easily navigable simple guide to using a contract written in plain language the jct standard building contract 2011 is an uncomplicated book about a complex and commonly used contract it

straightforwardly and concisely sets out exactly what the contract requires in various circumstances as far as possible without legal jargon and without assuming any particular legal or contractual expertise from the reader it explains often from first principles exactly what is meant by a contract and why certain clauses such as extension of time clauses or liquidated damages clauses are present and more importantly what they mean the book is divided into many chapters each with many sub headings to make it easy to read and to help readers to find relevant explanations quickly tables and flowcharts are used to ensure clarity and most chapters include a section dealing with common problems covers the recently issued jct standard building contract 2011 straightforward concise and as far as possible free of legal jargon sets out exactly what the contract requires in various circumstances includes many tables and flowcharts to ensure clarity

this title helps clarify complex areas of the jct 05 standard building contract making it an essential reference for professionals seeking to update their knowledge the book works through the contract issues thoroughly yet clearly using case law examples to demonstrate the latest amendments in regards to the construction act

the joint contracts tribunal standard form of building contract jct 98 is now a well established and widely used form that is not to say however that it is always well understood it is a large complex contract with a number of particularly difficult provisions it is not surprising therefore that not much guidance has been published on the form this book first written by john parris in 1982 and revised in 1985 was widely regarded as a valuable commentary on the standard form unavailable for some years it has now been substantially updated and completely rewritten by david chappell major changes have occurred since the last edition including a raft of amendments to the contract itself much new legislation including the housing grants construction and regeneration act 1996 and substantial new case law the book covers all these as well as the complex performance specified work provisions and the difficult problems of nomination the nominated sub contract conditions are referred to where appropriate and the book contains guidance on related matters such as warranties letters of intent and quantum meruit the book is not simply a re writing of the contract in simply terms it contains very valuable insights and much needed guidance on some of the lesser known implications of the current form the book will provide a valuable reference for clients professional advisers and contractors as well as for lawyers needing an introduction to the contract

this ninth edition of david chappell s bestselling guide has been revised to take into account changes made in 2011 to payment provisions and

elsewhere this remains the most concise guide available to the most commonly used jct building contracts standard building contract with quantities 2011 sbc11 intermediate building contract 2011 ic11 intermediate building contract with contractor s design 2011 icd11 minor works building contract 2011 mw11 minor works building contract with contractor s design 2011 mwd11 and design and build contract 2011 db11 chappell avoids legal jargon but writes with authority and precision architects quantity surveyors contractors and students of these professions will find this a practical and affordable reference tool arranged by topic

many building projects are the subject of claims the assertion of a right usually by the contractor to an extension of the contract period or an additional payment under the terms of the building contract many of these claims are unsound or ill founded often because the basic principles are misunderstood this highly regarded book examines the legal basis of claims for extensions of time and additional payment and what can and cannot be claimed under the main forms of contract it includes chapters dealing with direct loss and expense liquidated damages extension of time concurrency problems acceleration time at large common law and contractual claims global claims and heads of claim and their substantiation with the publication of the fifth edition building contract claims has been thoroughly revised to ensure it is fully up to date with the latest contracts court judgments and building practice changes include coverage of over 60 additional relevant court cases coverage of the 2005 jct contracts suite coverage of changes to the nec contract coverage of additional contracts such as constructing excellence measured term contract and the aca ppc2000 contract together with the 2005 relevant jct sub contracts important changes to liquidated damages and to extensions of time and the giving of notices appendix 1 has been substantially revised like its predecessors the fifth edition of building contract claims will be essential reading for architects contract administrators project managers and quantity surveyors as well as contractors contracts consultants and construction lawyers

this edition provides an expanded presentation of the most common forms of building contract the joint contract tribunal of jct standard contracts architects quantity surveyors and contractors and students should find this a straightforward and practical reference tool arranged by topic

guide to jct standard building contract 2016 is a practical guide to the operation and administration of jct s sbc 2016 suite of building contracts sbc q sbc aq and sbc xq all of the contracts provisions procedures and conditions are organised and explained by subject clearly distinguishing the different obligations due to various parties and the contractual issues arising during the course of a job all backed up by the latest legislation and

case law

this latest edition of david chappell s bestselling guide provides an expanded presentation of the joint contract tribunal jct standard contracts the most common forms of building contract the jct contract with contractor s design wcd 98 also known as the design and build form is now covered alongside the other three major forms of contract in the jct series jct 98 ifc 98 and mw 98 david chappell has updated the book in line with amendments to the contracts and recent case law he avoids legal jargon but writes with authority and precision in a style which won for the fifth edition of the book the first prize in the best textbook category of the 1999 chartered institute of building literary awards architects quantity surveyors and contractors and students of those professions should find this a straightforward and practical reference tool arranged by topic

the joint contracts tribunal s jct standard form of building contract one of the most common standard contracts used in the uk to procure building work is updated regularly to take account of changes in legislation and industry practice and relevant court decisions from litigation the jct 05 standard building contract law and administration is a second edition to the authors earlier award winning the jct98 building contract law and administration and clarifies complex issues surrounding obligations and rights under the contract this makes it an essential reference for construction professionals employers contractors and lawyers new to construction seeking to update and consolidate their knowledge the book also provides the knowledge and understanding of the contract which are a fundamental part of the education of most students who go on to become managers and leaders in the construction industry it thoroughly works through the provisions of the contract in simple language using case law examples and relevant statute to demonstrate approaches to its interpretation

the jct standard forms of building contract require a thorough understanding of their procedural requirements as well as their legal implications they require both the contractor and the architect on behalf of the employer to send a wide range of notices and letters if each party is to protect its legitimate interests the main contract forms are also supported by complex sub contract documentation therefore it is not surprising that when this book of specimen letters notices and forms was first published it was widely welcomed by the construction industry the book provides examples of documentation likely to be required for a contract under the following jct forms the standard form of building contract the intermediate form of building contract the agreement for minor building works the standard form of building contract with contractor s design it includes a commentary on the practical implications of the various documents and

highlights the points to be watched the new edition takes into account the wide range of amendments to the latest editions of the standard forms following the housing grants construction and regeneration act 1996 and in particular the new payment and adjudication provisions for the first time it features documentation for use with the jct design and build form
