written by a noted expert in criminal law this book explores the philosophical underpinnings of the law's major doctrines concerning actus reus mens rea and defences showing that they are not always driven by culpability they are grounded also in principles of moral responsibility ascriptive responsibility and wrongdoing as such they engage wider debates about wrongdoing and about the boundaries between liability and freedom this multi-textured analysis allows this book to take more nuanced positions about many important controversies in criminal law it argues for example that liability for omissions and for negligence and even some strict liability elements can sometimes be legitimate yet at the same time should be relatively rare it also explains why principles of causation can differ in the criminal law from other contexts what is wrong with the voluntary act requirement and why luck can affect the wrongs we commit without changing our degree of blameworthiness for committing them the book concludes with an account of the major types of defences and of how they interact with an agent's wrong and her underlying motivations this volume presents a coherent and rich vision of the criminal law that by its sheer breadth makes a distinctive contribution to the literature of interest to lawyers and philosophers alike
