based on 25 years of research this objective social history traces the growth of the religious right in america from its beginnings in 1970 to to its present status

after taking control of the glc through an audacious internal coup in 1981 ken livingstone s career was transformed in 2000 when he became the first directly elected mayor of london as an independent in the teeth of a fierce campaign by tony blair and alastair

campbell this biography provides an account of his life and career

as our country's politicians engage in bitter partisan battles focused on protecting their own jobs but not on doing the nation's business and political pundits shout louder and shriller to improve their ratings it's no wonder that americans have little faith in their government but is america as divided as the politicians and talking heads would have us believe do half of americans stand on the right and the other half on the left with a no man's land between them hardly forty percent of all american voters are independents who occupy the ample political and ideological space in the center these americans are anything but divided and they're being ignored these independents make up the largest voting bloc in the nation and have determined the outcome of every election since world war ii every year their numbers grow as does the unconscionable disconnect between them and the officials who are supposed to represent them the swing vote the untapped power of independents tells the story of how our polarized political system is not only misrepresenting america but failing it linda killian looks beyond the polls and the headlines and talks with the frustrated citizens who are raising the alarm about the acute bipolarity special interest influence and gridlock in congress asking why obama's postpartisan presidency is anything but and demanding realism honest negotiation and a sense of responsibility from their elected officials killian paints a vivid portrait of the swing voters around the country and presents a new model that reveals who they are and what they want from their government and elected officials she also offers a way forward including solutions for fixing our broken political system this is not only a timely shot across the bows of both parties but an impassioned call to independents to bring america back into balance

the christian right never ceases to surprise professional observers of american politics with the christian coalition in disarray many expected that the movement would play less of a role in the 2004 elections but when exit polls reported that moral values were the most commonly cited reason for presidential vote choice pundits immediately proclaimed the importance of the values vote yet the role of the christian right of statewide referenda on same sex marriage and of religious mobilization remained the subject of debate the values campaign the christian right and the 2004 elections reaches well beyond the instant analyses of the post election period to provide an assessment of the role of the religious right in 2004 the contributors to this volume are among the leading scholars of religion and politics in the united states and many have contributed for over a decade to ongoing discussions of the role played by the religious right in national elections the authors consider national mobilization and issues and also explore the role of the christian right in specific states their evaluations contend that the values campaign was not an aberration but a consistent pattern of national politics and that moral traditionalism will likely continue to be a significant factor in future elections a timely study of the 2004 elections this volume will appeal to scholars and observers of electoral politics state politics and religion and politics

explains how the creation and development of the internet has changed american politics discussing how the internet can be used to research political issues tap into important resources reach legislators and the media and organize grassroots campaigns

seniors are america s most dependable voters they vote in all elections and contests on the ballot but definitions of seniors are changing and so too must the campaign outreach techniques and strategies used by candidates consultants political parties and advocacy groups especially to reach seniors with limited sight hearing and mobility
