saint lambert s principles of the harpsichord of 1702 was the first tutor for harpsichord to be published in france it draws upon the dance oriented harpsichord style developed during the reign of louis xiv by such masters as jacques champion de chambonnierès louis couperin and jean henry d anglebert in subject matter it ranges from the fundamentals of music through questions of meter and tempo to particulars of harpsichord technique and ornamentation because of its broad scope it is an important source of information about both late seventeenth century french performance practice and music theory it provides a good complement to francois couperin s well known book l art de toucher le clavecin of 1717 in that it deals with the musical style of the generation preceding couperin and includes subjects not discussed by him although nothing is known about saint lambert himself it is clear from this work that as a teacher he was thorough sympathetic and open minded his book is deserving of a place on the shelf of anyone professional or amateur who is interested in the music of the grand siècle for this first english edition rebecca harris warrick has added a substantial introduction and full annotation throughout the text publisher description

from ouessant in the north to hendaye on the spanish border the third edition of this comprehensive sailing guide to the atlantic coast of france has once again been thoroughly revised and updated by nick chavasse aboard his bowman 40 wild bird his coastal explorations have taken him over drying causeways and under mast height bridges up tranquil rivers and around sand strewn islands and this first hand familiarity is evident in the extent and depth of coverage plans have been revised and updated throughout and there are numerous new photographs to help the navigator identify key features atlantic france is the authoritative cruising guide for this most popular coastline of historic ports and idyllic anchorages with its sometimes challenging tides currents and pilotage

spanning from the west african coast to the canadian prairies and south to louisiana the caribbean and guiana france s atlantic empire was one of the largest political entities in the western hemisphere yet despite france s status as a nation at the forefront of architecture and the structures and designs from this period that still remain its colonial building program has never been considered on a hemispheric scale drawing from hundreds of plans drawings photographic field surveys and extensive archival sources architecture and urbanism in the french atlantic empire focuses on the french state s and the catholic church s ideals and motivations for their urban and architectural projects in the americas in vibrant detail gauvin alexander bailey recreates a world that has been largely destroyed by wars natural disasters and fires from cap françois now cap haïtien which once boasted palaces in the styles of louis xv and formal gardens patterned after versailles to failed utopian cities like kourou in guiana vividly illustrated with examples of grand buildings churches and gardens as well as simple houses and cottages this volume also brings to life the architects who built these structures not only french military engineers and white civilian builders but also the free people of colour and slaves who contributed so much to the tropical colonies taking readers on a historical tour through the striking landmarks of the french colonial landscape architecture and urbanism in the french atlantic empire presents a sweeping panorama of an entire hemisphere of architecture and its legacy
