holbourne s theory that rotational head movement and shear strains were limiting factors in producing acute parenchymal brain damage was a watershed moment in understanding traumatic brain injury tbi long term effects and in particular neurodegenerative proteinopathy subsequent to tbi remain theoretical notwithstanding the poorly understood punch drunk syndrome of the early and mid 20th century and the 21st century concept of chronic traumatic encephalopathy this book

the handbook of traumatic brain injury and neurodegeneration has as its theme the marriage between neurodegenerative disease and neurotrauma through tbi surrogates such as sport military service and experimental models and the legitimacy of that marriage in the 32 contributions included here this handbook not only explores the deleterious effects of genuine tbi but also and more importantly the relationship between tbi and neurodegeneration controversy notwithstanding there is much to be learned about the biological effects of tbi substrates for long term sequelae the relationship between tbi and diverse neuropsychiatric disorders and targets for therapy the overall message to the neuroscience community from these papers may be a cautionary tale the null hypothesis that there is no causal relationship between tbi and progressive neurodegenerative disease appears to be very much in play and the book will be of interest to all those working in the field

imperial tombs buddhist architecture palaces and art treasures in korea and japan have attracted scholars collectors and conservators and millions of tourists as iconic markers of racial and cultural identity at home and abroad they are embraced as tangible sources of immense national pride and popular must see destinations this book provides the first sustained account to highlight how the forces of modernity nationalism colonialism and globalization have contributed to the birth of museums field disciplines tourist industry and heritage management policies its chapters trace the history of explorations preservations and reconstructions of archaeological monuments from an interregional east asian comparative perspective in the past century

includes entries for maps and atlases
