design is the single most important factor in creating a successful photograph the ability to see the potential for a strong picture and then organize the graphic elements into an effective compelling composition has always been one of the key skills in making photographs digital photography has brought a new exciting aspect to design first because the instant feedback from a digital camera allows immediate appraisal and improvement and second because image editing tools make it possible to alter and enhance the design after the shutter has been pressed this has had a profound effect on the way digital photographers take pictures now published in sixteen languages the photographer s eye continues to speak to photographers everywhere reaching 100 000

copies in print in the us alone and 300 000 worldwide it shows how anyone can develop the ability to see and shoot great digital photographs the book explores all the traditional approaches to composition and design but crucially it also addresses the new digital technique of shooting in the knowledge that a picture will later be edited manipulated or montaged to result in a final image that may be very different from the one seen in the viewfinder

design is the single most important factor in creating a successful photograph the ability to see the potential for a strong picture then to organise the graphic elements into an effective compelling composition has always been one of the critical skills in making photographs since its first publication in 2007 the photographer s eye has established itself as the essential work on this subject and a key book for modern photographers with hundreds of thousands of copies sold it explores all the traditional approaches to composition and design and crucially also covers digital possibilities like stitching and hdr in keeping with the book s purpose to expand the possibilities of the medium without compromising the photographer s vision this edition has been completely remastered to celebrate its tenth anniversary all new digital reproduction not available when the book first came out gives the author s photography a fresh new look while retaining the know how that has given a generation of photographers new purpose

photography is a complex craft some excel at the technical side of image making focusing perfectly on the subject releasing the shutter at just the right moment and making exposures with the precise amount of light others are artists and storytellers capturing a fleeting moment in time which inspires a viewer to gaze upon an image and ponder its meaning the best photographers are masters of both in this highly visual informative new book angela faris belt discusses the four crucial elements of photography that are essential for successful technical and conceptual image making the photographic frame and its borders quality of focus as determined by the aperture or lens shutter speeds and their effects in relation to time and motion the physical media used to create the aggregate image step by step guidance including informative screen shots traditional darkroom and photoshop techniques suggested exercises and before and after images help both film and digital photographers improve their skills learn new techniques and better understand their craft more than 300 stunning full color images and portfolios featuring the work of over 40 prestigious artists provide visual inspiration as well as a gorgeous collection of artwork for photography enthusiasts

photography can be learned from books but there is no substitute for the experience of watching a master of the cra in action now michael freeman one of the worlds best selling photo authors invites you to join him on a host of photographic assignments in this six episode new series on two dvds with him as your guide youll see how your photography skills can be applied in real life shooting situations youll see how the pros consistently achieve great results under difficult situations and youll be inspired to pick up

your camera and hit the road the accompanying book is packed with further examples and exercise tailored to the points that michael makes on screen together book and dvds make this the last word in practical photo instruction

the popular illustrated journal for all photographers devoted to the interests of photography and kindred arts and sciences

an invaluable resource for photography educators this volume is a survey of photographic education in the first decade of the 21st century drawing upon her 25 years of teaching experience and her professional network michelle bogre spoke with 47 photo educators from all over the world to compile this diverse set of interviews the themes of these conversations explore why students should study photography the value of a formal photography degree teaching philosophies whether video and multimedia should be an essential part of a photographic curricula the challenges of teaching photography today changes in photographic education overall the second half of the book shares 70 photography assignments of varying level of difficulty from these educators some paired with examples of how students completed them this book will inspire and invigorate any photography educator s curriculum

start taking pictures that are just as cute as they are part of the popular betterphoto series this book shows photographers how to get great shots of children of all ages under any conditions and with any subject learn how to use light composition and exposure to help improve photographs how to capture a moving target and how to develop rapport with even the shyest or most rambunctious child

shot over the course of a year at locations across the globe the master classes on these two full length dvds cover virtually every skill in celebrated photographer and teacher michael freeman s professional armory this uniquely accessible approach takes viewers from first principles exposure focus and composition to the subtle art of storytelling in pictures combined with the tailor made coursebook that allows the reader to make focused practical improvements the photographer s eye complete course will take your photography to the next level
