some say that public policy can be made without the benefit of theory that it emerges instead through trial and error others see genuine philosophical issues in public affairs but try to resolve them through fanciful examples both argues robert e goodin are wrong goodin a political scientist who is also an associate editor of ethics shows that empirical and ethical theory can and should guide policy to be useful however these philosophical discussions of public affairs must draw upon actual policy experiences rather than contrived cases further they must reflect the broader social consequences of policies rather than just the dilemmas of personal conscience effectively integrating the literatures of social science policy science and philosophy goodin provides a theoretically sophisticated yet empirically well grounded analysis of public policies the principles underlying them the institutions shaping them and the excuses offered for their failures this analysis is enhanced by the author s discussion of such specific cases as the disposal of nuclear wastes and the priority accorded national defense cases that illustrate goodin s theoretical and methodological framework for approaching policy issues

when bashar al assad used chemical weapons against his own people in syria he clearly crossed president barack obama s red line at the time many argued that the president had to bomb in order to protect america s reputation for toughness and therefore its credibility abroad others countered that concerns regarding reputation were overblown and that reputations are irrelevant for coercive diplomacy whether international reputations matter is the question at the heart of fighting for credibility for skeptics past actions and reputations have no bearing on an adversary s assessment of credibility power and interests alone determine whether a threat is believed using a nuanced and sophisticated theory of rational deterrence frank p harvey and john mitton argue the opposite ignoring reputations sidesteps important factors about how adversaries perceive threats focusing on cases of asymmetric us encounters with smaller powers since the end of the cold war including bosnia kosovo iraq and syria harvey and mitton reveal that reputations matter for credibility in international politics this dynamic and deeply documented study successfully brings reputation back to the table of foreign diplomacy
