in the past thirty years epistemology has been one of the fastest moving disciplines in philosophy the reason for the rapid advancement is partly due to the fact that various schools and movements inside epistemology have developed different answers to

classical epistemological problems and partly due to the fact that formal methods from logic probability theory and computability have been utilized to deal with many of the same issues and used for applications outside traditional epistemology new waves in epistemology reflects these changes by letting up and coming scholars describe the current trends as well as discussing the prospects for future development

metaethics occupies a central place in analytical philosophy and the last forty years has seen an upsurge of interest in questions about the nature and practice of morality this collection presents original and ground breaking research on metaethical issues from some of the very best of a new generation of philosophers working in this field

new waves in philosophy of science captures the diverse array of issues in the rapidly developing area of philosophy of science by bringing together a pool of talented young philosophers from across the globe to debate the field and show where it s heading

what is truth philosophers are interested in a range of issues involving the concept of truth beginning with what sorts of things can be true this is a collection of eighteen new and original research papers on truth and other alethic phenomena by twenty of the most promising young scholars working on truth today

metaethics occupies a central place in analytical philosophy and the last forty years has seen an upsurge of interest in questions about the nature and practice of morality this collection presents original and ground breaking research on metaethical issues from some of the very best of a new generation of philosophers working in this field

searching for better ways to inspire people to pursue wisdom frederick d aquino argues that teachers and researchers should focus less on state of the art techniques and learning outcomes and instead pay more attention to the intellectual formation of their students we should aquino contends encourage the development of an integrative habit of mind which entails cultivating the capacity to grasp how various pieces of data and areas of inquiry fit together and to understand how to apply this information to new situations to fully explore this notion an integrative habit of mind brings the work of the great religious figure and educator john henry newman into fruitful conversation with recent philosophical developments in epistemology cognition and education aquino

unearths some crucial but neglected themes from newman's writings and carries them forward into the contemporary context revealing how his ideas can help us broaden our horizons render apt judgments and better understand our world and how we think about it

recent epistemology has reflected a growing interest in issues about the value of knowledge and the values informing epistemic appraisal is knowledge more valuable than merely true belief or even justified true belief is truth the central value informing epistemic appraisal or do other values enter the picture epistemic value is a collection of previously unpublished articles on such issues by leading philosophers in the field it will stimulate discussion of the nature of knowledge and of directions that might be taken by the theory of knowledge the contributors are jason baehr michael brady berit brogaard michael depaul pascal engel catherine elgin alvin goldman john greco stephen grimm ward jones martin kusch jonathan kvanvig michael lynch erik olsson wayne riggs and matthew weiner

epistemic evaluation aims to explore and apply a particular methodology in epistemology the methodology is to consider the point(s) or purpose(s) of our epistemic evaluations and to pursue epistemological theory in light of such matters call this purposeful epistemology the idea is that considerations about the point and purpose of epistemic evaluation might fruitfully constrain epistemological theory and yield insights for epistemological reflection several contributions to this volume explicitly address this general methodology or some version of it others focus on advancing some application of the methodology rather than on theorizing about it the papers go on to explore the idea that purposes allow one to understand the conceptual demands on knowing examine how purposeful epistemology might shed light on the debate between internalist and externalist epistemologies and further develop the idea of purposeful epistemology

in this volume honoring william j abraham noted theologians philosophers and historians offer erudite analysis of various aspects of the faith scripture conversion initiation liturgy confession reconciliation and more and explore how those elements can serve to effect healing in broken lives brilliantly highlighting the therapeutic function of the means of grace available in christian tradition immersed in the life of god opens a

conversation concerning an important theme too often neglected in the church today

a collection of original state of the art essays by some of the best young philosophers
working on the myriad problems of action and agency each one has already made
important contributions to the philosophy of action and cognate areas the chapters
reflect their research and make a significant contribution to some debate in the field

this book explores the relevance of virtue theory to law from a variety of perspectives
the concept of virtue is central in both contemporary ethics and epistemology in
contrast in law there has not been a comparable trend toward explaining normativity on
the model of virtue theory in the last few years however there has been an increasing
interest in virtue theory among legal scholars virtue jurisprudence has emerged as a
serious candidate for a theory of law and adjudication advocates of virtue jurisprudence
put primary emphasis on aretaic concepts rather than on duties or consequences
aretaic concepts are on this view crucial for explaining law and adjudication this book is
a collection of essays examining the role of virtue in general jurisprudence as well as in
specific areas of the law part i puts together a number of papers discussing various
philosophical aspects of an approach to law and adjudication based on the virtues part
ii discusses the relationship between law virtue and character development with some
of the essays selected analysing this relationship by combining both eastern
perspectives on virtue and character with western approaches parts iii and iv examine
problems of substantive areas of law more specifically criminal law and evidence law
from within a virtue based framework last part v discusses the relevance of empathy to
our understanding of justice and legal morality

an international journal of general philosophy

a collection of new essays by young scholars on the cutting edge of this ancient
philosophical area diverse topics including ontology free will fundamental properties
and causation the volume will appeal both to specialists and to anyone interested in the
present and future state of metaphysics in the english speaking world
