the first of robert perisic's novels to be translated into english our man in iraq gets to the heart of life made and remade by war and serves as an unforgettable introduction to a vibrant voice from croatia that's filled with characteristic humor and insight 2003 as croatia lurches from socialism into globalized capitalism toni a cocky journalist in zagreb

struggles to balance his fragile career pushy family and hotheaded girlfriend but in a moment of vulnerability he makes a mistake volunteering his unhinged arabic speaking cousin boris to report on the iraq war boris begins filing gonzo missives from the conflict zone and toni decides it is better to secretly rewrite his cousin s increasingly incoherent ramblings than face up to the truth but when boris goes missing toni s own sense of reality and reliability begins to unravel

in late 2003 five military intelligence soldiers were tasked to track the radical firebrand shi ite cleric muqtada al sadr these army reservists followed his moves through the streets and back alleys of kufa and najaf they reported the activities of and the growing influence of his mahdi army as they slowly but deliberately encroached on the local governments for control of the prized imam ali shrine and the millions of dollars worth of gold and currency that laid therein lieutenant general ricardo s sanchez personally followed the progress of this small group of soldiers looking for clues of sadr s intentions and how it would affect the coalition and the rest of iraq for the next six months debates raged from the green zone to the corridors of the pentagon and even to the oval office of the white house what should be done with muqtada al sadr now for the first time the ground truth is revealed about how america let iraq s most dangerous man raise an army fight the coalition twice and then slip through their fingers to escape to iran where he is being groomed to become iraq s next ayatollah and awaits the time to return and claim iraq for iran

iraq the moral reckoning applies classic just war theory to the u s decision to go to war in 2003 that theory which evolved over several millennia is a simple profound tool for evaluating the rightness and wisdom of starting a war the bush administration and its supporters referred directly and indirectly to the theory in making a pro war case to the world the theory provides three core moral criteria for a just war sovereign authority just cause and right intention which includes an aim of peace it adds three practical criteria proportionality of ends last resort and reasonable chance of success for a just war each criterion should be substantially met since war is destructive and each country is

presumed to have the right to live in peace the evidence in favor of war must be clearly stronger than evidence against it for each criterion iraq the moral reckoning painstakingly weighs bush administration statements or those of its supporters against evidence available at the time a wide range of viewpoints and evidence is considered and contrary arguments are refuted one full chapter is given to neoconservative arguments on just war theory and its application from prominent war supporters each criterion except sovereign authority is shown not to have been met the book concludes with a discussion of the implications of an unjust war for the united states and the world the intensive weighing of each criterion against the facts and the balanced approach make the book unique by demonstrating a comprehensive application of the theory to one war it not only sets a new standard for evaluating the 2003 iraq war but also shows how present and future wars can be better evaluated in moral and practical terms based on knowledge available at the time

this book links sectarianism in iraq to the failure of the modern nation state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry after a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality the author sets out to explain the persistence of sectarian affiliations in iraq since its creation following the dismemberment of the ottoman empire despite the adoption of homogenizing state policies the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups the shicites before 2003 and the sunnis in the post 2003 period the book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened sectarian consciousness tracing how the anti persian streak in the nation state s pan arab ideology which camouflaged anti shicism undermined iraq s national integration project sectarianism in iraq delves into the country s slide from a totalizing pan arab ideology in the pre 2003 period toward the atomistic impulse of the federalist debate in the post 2003 period employing extensive fieldwork this book sheds light on the dynamics of political life in post saddam iraq and is essential reading for iraqi and middle east specialists as well as those interested in

understanding the current heightening of sectarian sunni shicite tensions in the middle east

i have always been interested in mutual writing where the speaker speaks in the form of me and wants you or they or them and speaks in the form of the absent but he wants himself in the reciprocal language the souls are mixed everything becomes anything else the person becomes the whole and the whole becomes one in this long poem i adopted the reciprocal language where the term i here usually refers to what we you he you she all that or otherwise and i rarely mean i i am an iraqi man means he is you are we it you they are and all this and iraq means any land and the whole land

examines the development of michael moore s ideas and the evolution of his filmmaking then dissects fahrenheit 9 11 and explores the many claims and disagreements about the movie s truthfulness this study shows that michael moore s film did more than shake up a nation

what s it like to be the son or daughter of a dictator a monster on the stalin level what s it like to bear a name synonymous with oppression terror and evil jay nordlinger set out to answer that question and does so in this book he surveys 20 dictators in all they are the worst of the worst stalin mao idi amin pol pot saddam hussein and so on the book is not about them really though of course they figure in it it s about their children some of them are absolute loyalists they admire revere or worship their father some of them actually succeed their father as dictator as in north korea syria and haiti some of them have doubts a couple of them become full blown dissenters even defectors a few of the daughters have the experience of having their husband killed by their father most of these children are rocked by war prison exile or other upheaval obviously the children have things in common but they are also individuals making of life what they can the main thing they have in common is this they have been dealt a very very unusual hand what would you do if you were the offspring of an infamous dictator who lords it over your country an early reader of this book said there s an opera on every page a drama a tragedy or even a comedy another reader said he had read the chapter on bokassa with

my eyes on stalks meet these characters for yourself marvel shudder and ponder
