here is an authoritative account by one of britain s leading germanists of the political history of the west german state from its birth amid postwar devastation and defeat through to reunification after the fall of the soviet empire when she was once again the leading power of continental europe it describes how the new germany was brought into being by the rapidly changing political patterns of the cold war how it built a stable in due course formidable economy in the face of overwhelming odds and how the hard won triumph of germany s new federal democratic vision has itself contributed to the larger vision of a federal democratic europe it ends with a consideration of whether the new reunified germany can hold to the same goals and certainties the book is written from a firmly historical perspective at a judicious distance from the events it explores and the approach

is via a broad analytical narrative rather than a series of thematic investigations

the german wehrmacht was one of the most capable fighting forces the world has ever known but in the end it was no match for the allies some historians contend that the allies achieved victory through brute force and material superiority but as peter mansoor argues all of the material produced by us industry was useless without trained soldiers to operate it a coherent doctrine for its use and leaders who could effectively command the formations into which it was organized

the author presents immigration policy as a process which has social consequences not only for the newcomer group but also for the wider receiver society this work considers the obligations which receiver societies have for considering refugee claims but at the same time assesses contemporary security concerns it also provides an introduction to the roles of non government organizations as stake holders in the political process the book also offers a study of the historical and cultural context of immigration in germany and australia which demonstrates the practical impact of these issues

this monograph examines the deposition of precious metal artefacts in the late roman and early byzantine periods from c ad 200 to ad 700 within and beyond the frontiers of the roman empire and its successor states the primary foci of the study are the size date range and spatial distribution of these finds with less emphasis on specific aspects of artefacts themselves and the specific contexts in which individual deposits were found the immense chronological and regional scope allows broad changes in deposition patterns to be presented and examined and a variety of possible interpretations of these patterns are offered in the final chapter
