language english abstract the role of the english language among all other languages is constantly examined researched and
written about it appears that no other language has ever had such an amazing and massive impact on other cultures languages
and world history statements like english is today a truly global language rubdy 2006 5 and world english exists as a political
and cultural reality crystal 2003b xii underpin the notion of the possibility of a language that connects all people a notion and
perhaps also a wish that is almost as old as mankind this paper will investigate the question of what defines a language as a
global one and what factors are convincing or definite david crystal's explanation makes it quite obvious a language achieves a
genuinely global status when it develops a special role that is recognized in every country crystal 2003b 3 however he himself

admits that this is not precise enough a special role can mean many things the concept usually refers to political aspects like for example the status of the language of the state defined by law or the language being the only one in some states for historical reasons cf crystal 2003b 66 but in all cases it can be argued the population is living in an environment in which the english language is routinely in evidence publicly accessible in varying degrees and part of the nation s recent or present identity crystal 2003b 66 it also has to be clarified what processes can lead to a global status of a language and if so called naïve theories hold true for the purpose of examining this question further the concept of the lingua franca and the role of english as such will also be looked at talking about english and its world influence it is inevitable to consider the roles and history of britain and the united states in order to make the attempt of getting more precise numbers of speakers will be shown and it will be explained how these numbers came about and what they mean as obvious as it may seem english is dominant in so many spheres that it appears impossible to account for all of them thoroughly however the most significant domains will be explained as such in order to draw a connection between history present and future
