This textbook is the new edition of Purnell's famous transcultural health care based on the Purnell twelve-step model and theory of cultural competence. This textbook, an extended version of the recently published handbook, focuses on specific populations and provides the most recent research and evidence in the field. This new updated edition discusses individual competencies and evidence-based practices as well as international standards, organizational cultural competence, and perspectives on health care in a global context. The individual chapters present selected populations, offering a balance of collectivistic and individualistic cultures, featuring a uniquely comprehensive assessment guide. It is the only book that provides a complete profile of a population group across clinical practice settings. Further, it includes a personal understanding of the traditions and customs of society, offering all health professionals a unique perspective on the implications for patient care.

Her story reflects the experiences common to many Indian communities in Latin America. Today, Rigoberta suffered gross injustice and hardship in her early life. Her brother, father, and mother were murdered by the Guatemalan military. She learned Spanish and turned to catechist work as an expression of political revolt as well as religious commitment. The anthropologist Elisabeth Burgos de Bray herself, a Latin American woman, conducted a series of interviews with Rigoberta Menchú. The result is a book unique in contemporary literature which records the detail of everyday Indian life. Rigoberta's gift for striking expression vividly conveys both the religious and superstitious beliefs of her community and her personal response to feminist and socialist ideas. Above all, these pages are illuminated by the enduring courage and passionate sense of justice of an extraordinary woman.

But there is no story Garbus wants to tell more than that of his most challenging case: representing five Cuban spies marooned in the U.S. prison system and his efforts to get them out. North of Havana tells the story.
