this book first published in 1965 describes the british penal system as it existed in the 1960s it describes how the system defined accounted for and disposed of offenders as an early work in criminology it focuses on differences between and changes in the views held by legislators lawyers philosophers and the man in the street on the topic of crime and punishment walker is interested in the extent to which their views reflect the facts established and the theories propounded by psychologists anthropologists and sociologists the confusion between criminologists and penal reformers

was initially encouraged by criminologists themselves many of whom were penal reformers strictly speaking penal reform according to walker was a spare time occupation for criminologists just as canvassing for votes is an ancillary task for political scientists the difference is that the criminologists spare time occupation is more likely to take a moral form and when it does so it is more likely to interfere with what should be purely criminological thoughts the machinery of justice involves the interaction of human beings in their roles of victim offender policeman judge supervisor or custodian and there must be a place for human sympathy in the understanding and still more in the treatment of individual offenders this book is concerned with the efficiency of the system as a means to these ends one of the main reasons why penal institutions have continued to develop more slowly than other social services is that they are a constant battlefield between emotions and prejudices this is a great empirical study against which the policy maker and criminologist can measure progress or regression in british criminals and punishments nigel walker is emeritus wolfson professor of criminology and former director of the institute of criminology at the university of cambridge he is the author of numerous books including a man without loyalties behavior and misbehavior and aggravation mitigation and mercy in english criminal justice

the statistics are startling since 1973 america s imprisonment rate has multiplied over five times to become the highest in the world more than two million inmates reside in state and federal prisons what does this say about our attitudes toward criminals and punishment what does it say about us this book explores the cultural evolution of punishment practices in the united states anne marie cusac first looks at punishment in the nation s early days

when americans repudiated old world cruelty toward criminals and emphasized rehabilitation over retribution this attitude persisted for some 200 years but in recent decades we have abandoned it cusac shows she discusses the dramatic rise in the use of torture and restraint corporal and capital punishment and punitive physical pain and she links this new climate of punishment to shifts in other aspects of american culture including changes in dominant religious beliefs child rearing practices politics television shows movies and more america now punishes harder and longer and with methods we would have rejected as cruel and unusual not long ago these changes are profound their impact affects all our lives and we have yet to understand the full consequences
