this book explores how social software and developing community ontologies are challenging the way we operate in a performative space provided by publisher

the positive impacts of social protection on reducing poverty and inequality and contributing to development are well evidenced establishing an integrated system facilitates the provision of a social protection floor

whereby individuals are appropriately protected throughout the life cycle

finally a social media text that combines liberal arts and social science intellectualism with practical real world tips for success in this crucial aspect of professional communications its value goes beyond the classroom everything in the book will resonate with and be useful to pr pros already engaged in social media management ray begovich franklin college social media strategy tools for professionals and organizations shows professionals and organizations how to use social media more effectively and strategically with a focus on what makes social media unique among communication platforms this book offers practical guidance on creating implementing and evaluating social media strategies and tactics social media is constantly evolving so the book focuses on enduring strategic principles and uses case studies and exercises throughout to help readers build the fundamental competencies needed by today s social media managers

this book examines the extent to which social media marketing influences the customer based brand equity of higher education institutes higher education institutions operate in a strong competitive environment due to the homogenous nature of their services and always look for new marketing strategies to be competitive in the marketplace therefore building customer based brand equity has become crucial for higher education institutions to differentiate themselves from others to attract prospective students social media based marketing facilitated prospective students to communicate and collaborate to gather information relevant to higher education institutions and their respective brand equity however many models on customer based brand equity received limited support in the higher education sector particularly in emerging asian countries as such drawing from social information processing theory this book empirically investigates how higher

education institutions can develop customer based brand equity by using social media marketing and subjective norms mediated by brand credibility taking cross country comparisons between sri lanka and vietnam the book goes on to examine the applications and implications of the findings for higher education institutions in developing branding strategies through social media
