what if the religious themes and allusions in modernist poetry are not just metaphors following the religious turn in other disciplines literary critics have emphasized how modernists like woolf and joyce were haunted by christianity s cultural traces despite their own lack of belief in poetry and theology in the modernist period anthony domestico takes a different tack arguing that modern poets such as t s eliot w h auden and david jones were interested not just in the aesthetic or social implications of religious experience but also in the philosophically rigorous dogmatic vision put forward by contemporary theology these poets took seriously the truth claims of christian theology for them religion involved intellectual and emotional assent doctrinal articulation and ritual practice domestico reveals how an important strand of

modern poetry actually understood itself in and through the central theological questions of the modernist era what is transcendence and how can we think and write about it what is the sacramental act and how does its wedding of the immanent and the transcendent inform the poetic act how can we relate kairos holy time to chronos clock time seeking answers to these complex questions domestico examines both modernist institutions the criterion and specific works of modern poetry eliot s four quartets and jones s the anathemata the book also traces the contours of what it dubs theological modernism a body of poetry that is both theological and modernist in doing so this book offers a new literary history of the modernist period one that attends both to the material circulation of texts and to the broader intellectual currents of the time

sold as a multi volume set the individual volumes are also available for purchase this volume traces the history of the tgwu from its zenith in the period of the labour government to its nadir in 1992 it easily divides itself into two distinct periods the first from 1974 79 saw a reforming labour government which recognising trade union strength was determined to bring about a fundamental and irreversible shift in the balance of power and wealth in favour of working people it marked the zenith of the tgwu in which the union played an important role overseeing the repeal of anti union industrial relation act and the enactment of a raft of pro worker legislation but this was insufficient to sustain the social contract between the labour government and the trade unions leading to the winter of discontent and the tory election victory of 1979 the second period 1979 92 witnessed the nadir of the tgwu a right wing conservative government led by margaret thatcher was determined to reverse all the gains of preceding labour administrations anti union legislation and the cruel tool of unemployment created the economic and political conditions to decimate trade unions defensive struggles could not stop the defeats suffered by car workers miners printers and dockers trade union membership declined in the thatcher years leading to a bleak period of industrial defeat and union retrenchment characterised by mergers and reorganisation mitigated only by positive moves to tackle endemic racism and sexism in an attempt to involve previously disregarded women and black workers
