tracing the rise of racist and eugenic ideologies henry friedlander explores in chilling detail how the nazi program of secretly exterminating the handicapped and disabled

evolved into the systematic destruction of jews and gypsies he describes how the so called euthanasia of the handicapped provided a practical model for the later mass murder thereby initiating the holocaust the nazi regime pursued the extermination of jews gypsies and the handicapped based on a belief in the biological and thus absolute inferiority of those groups to document the connection between the assault on the handicapped and the final solution friedlander shows how the legal restrictions and exclusionary policies of the 1930s including mass sterilization led to mass murder during the war he also makes clear that the killing centers where the handicapped were gassed and cremated served as the models for the extermination camps based on extensive archival research the book also analyzes the involvement of the german bureaucracy and judiciary the participation of physicians and scientists and the nature of popular opposition

this eye opening book highlights the role of elites in constructing systems of persecution and extermination during the holocaust being highly educated or living within a certain social class doesn't prevent us from being lured into destructive systems especially when they operate to our benefit the perception that the holocaust was largely a crime carried out by ill educated thugs acting on nationalistic hysteria and xenophobic prejudice is a myth leaders from many sectors of society including industry science and religion came to support and enable the nazi government often due to the ways in which they were able to profit and benefit from the policies of persecution and genocide with both a social science and historical approach lethal elites highlights and assesses the ways in which the influence training and expertise of the most powerful and best educated were used in service to the genocidal agenda of the national socialist regime

in the name of the people explores the profile of the perpetrators of nazi genocide as reflected in postwar german trial sentences it investigates their social background their route to crime and their role in the nazi extermination apparatus in addition it studies the postwar prosecution of these genocidal criminals in west germany it describes and analyses the obstacles bottlenecks and omissions in the prosecuting policies and presents their statistical record it examines the way in which postwar german courts dealt with these criminals by an in depth study of the trial sentences against two specific groups of genocidal perpetrators the euthanasia and aktion reinhard killers through a scrutiny of the argumentation of the various courts sentences in these cases it presents a detailed picture of the grounds for acquittal conviction and punishment it discusses the controversial differentiation of murder and complicity in murder with regard to these genocidal perpetrators and highlights the ways in which the courts handled complicated questions such as acting under superior orders duress and coercion the study is intended for a readership consisting of historians sociologists criminologists legal experts and others interested in the fieldworkers and modus operandi of the nazi genocide and germany's postwar judicial reaction to it

james tent recounts how these men and women from all over germany and from all walks of life struggled to survive in an increasingly hostile society even as their jewish

relatives were disappearing into the east it draws on extensive interviews with twenty survivors many of whom were teenagers when hitler came to power to show how half jews coped with conditions on a day to day basis and how the legacy of the hatred they suffered still lingers in their minds

naomi kramer and ronald headland use the example of the individual to approach universal issues that inevitably arise in discussing the holocaust evil courage human dignity moral responsibility and the existential qualities of humankind this book consists of two main sections the first involves interpretation and reflections on the meaning of one individual s experiences during the shoah the second section sets forth the historical content in which these experiences occurred it contains a comprehensive historical summary of the shoah and represents a succinct synopsis of existing secondary literature and primary sources

ce document traite de l abus dont sont victimes les personnes ayant une d@ficiency il apporte des solutions en orientant la d@marche sur la pr@vention de ces abus en identifiant les risques et les situations propices l abus et de violence

this study concentrates on the holocaust in ukraine and romania it discusses jewish participation in the resistance and opposition collaboration among local inhabitants and the interrelations of jewish and non jewish populations it recognizes that extermination strategies varied from place to place and gives detailed attention to these differences

debates on the holocaust is the first attempt to survey the development of holocaust historiography for a generation it analyses the development of history writing on the destruction of the european jews from just before the end of the second world war to the present day and argues forcefully that history writing is as much about the present as it is the past the book guides the reader through the major debates in holocaust historiography and shows how all of these controversies are as much products of their own time as they are attempts to uncover the past debates on the holocaust will appeal to sixth form and undergraduate students and their teachers holocaust historians and anyone interested in either the destruction of the european jews or in the process by which we access and understand the past

the atrocities committed by nazi physicians and researchers during world war ii prompted the development of the nuremberg code to define the ethics of modern medical experimentation utilizing human subjects since its enunciation the code has been viewed as one of the cornerstones of modern bioethical thought the sources and ramifications of this important document are thoroughly discussed in this book by a distinguished roster of contemporary professionals from the fields of history philosophy medicine and law contributors also include the chief prosecutor of the nuremberg military tribunal and a moving account by a survivor of the mengele twin experiments the book sheds light on keenly debated issues of both science and jurisprudence including the ethics of human experimentation the doctrine of informed consent and the code

s impact on today's international human rights agenda the historical setting of the code's creation some modern parallels and the current attitude of German physicians toward the crimes of the Nazi era are discussed in early chapters the book progresses to a powerful account of the doctors' trial at Nuremberg its resulting verdict and the code's development the code's contemporary influence on both American and international law is examined in its historical context and discussed in terms of its universality are the foundational ethics of the code as valid today as when it was originally penned the editors conclude with a chapter on foreseeable future developments and a proposal for an international covenant on human experimentation enforced by an international court a major work in medical law and ethics this volume provides stimulating provocative reading for physicians legal professionals bioethicists historians biomedical researchers and concerned laypersons

the Holocaust readings and interpretations raises important questions related to the study of the Holocaust and offers potential answers to these questions through interpretive essays from the field's leading scholars many with differing opinions and points of view the book emphasizes the complexity of the subject while it seeks to provide an understanding of an historical event that for many people still defies comprehension although the attempted annihilation of European Jews by Hitler's Third Reich occurred between 1933 and 1945 the roots of antisemitism are at least two millennia old each of the book's nine chapters raises relevant questions regarding the Holocaust its historical context the factors which made it possible its victims and perpetrators responses to it by individuals groups and nations issues of gender and the philosophical and theological implications the concluding section of the book explores the latest scholarship in the field through analysis and evaluation of the topics which attract historians today

Rubenfeld and the contributors to this collection posit that German physicians betrayed the Hippocratic oath when they chose knowledge over wisdom the state over the individual a Führer over God and personal gain over professional ethics

the state-sponsored genocide known as the Holocaust was the greatest crime of this century and a seminal event of modern times in this major work Klaus Fischer unravels the complex history of Judeophobia in its four essential forms Christian nationalistic social discriminatory and biological racial he argues that German defeat in World War I cleared the way for the pathological Judeophobia that formed the core of Nazism when Hitler turned Germany into a racist totalitarian state Jews changed from Christ-killers or alien outsiders to racial subhumans or deadly bacilli Fischer carefully explores the German Jewish relationship in modern times in all its dimensions he reveals how the Nazis' anti-Jewish prejudices became public policy in the Third Reich and traces the interaction between ideological obsession and bureaucratic decisions that led to the final solution finally Fischer shows the global implications of the Holocaust by exploring how collectivized and aberrant thinking when it becomes institutionalized in a modern

technological state can cause even greater horrors in the future
