a biblically based examination evaluation and refutation of the reformed doctrine of
redemption and reprobation

about the book a cultish side of calvinism was first written for the purpose of

clarifying calvinistic theology but coate's research led him to the conclusion that it shares significant similarities to unorthodox christian faiths coate's scrutiny will prove to be biblically balanced and practically engaging for anyone remotely interested in christian theology as a pastor speaker and hospital chaplain micah has experienced firsthand calvinism's effect in christian culture he clearly writes how you can beware the pitfalls of calvinism's overly systematized theology if the rise of a cultish theology grows within christendom so must a true discernment of its claims and consequences the same standard that has placed mormons jehovah's witnesses and scientologists outside the christian camp of orthodoxy has now for the first time placed the theology of calvinism as being too cultish for comfort unlike any other book on the market a cultish side of calvinism not only shows that the theology of calvinism is more systematic than biblical but that it is comparable to almost any classic christian cult most people know that evangelical christianity has rightly denounced theologies that differ in the essentials of the faith yet due to its foothold on christian orthodoxy the theology of calvinism has mainly gone unnoticed leaving many young christians unaware of the veiled and yet essential claims of their newly found theology the september 2006 issue of christianity today sums up the previous claims that calvinism is growing among a new generation of christians the story's title says it all young restless reformed calvinism is making a comeback and shaking up the church if the claims of this book go unchecked and calvinism is indeed shaking up the church we should fear that it will tragically break up the body of christ even further about the author whether in a classroom or a church setting micah desires to present the claims of the bible in relevant and honest ways he makes the study of theology and religion practical and freshly engaging other than speaking and writing on theology micah is also building an archive of articles on politics and ethics emphasizing the place for common sense his hunger to seek god's truth in all spheres of life is captivating and exciting micah is married with one child he enjoys music art and the outdoors in his free time he likes to work on his house micahcoate.com

chiefly mission services in india far east and africa with brief references to australia

this book builds a solid basis for understanding the heart of the christian faith through 30 weekly sessions about establishing a foundation in christ

this is an updated version of karier's highly regarded man society and education which focuses on the concepts of human nature and community throughout american educational history for the new edition karier has added chapters on the major movements in american education from world war ii to the present and on the major supreme court cases involving educational policy during the same period this classic volume remains a remarkable study in the history of ideas into which the implications for american schooling have been deftly woven it is balanced thorough and intelligently challenging ann m keppel college of education university of hawaii at manoa this new edition should have great use as a primary text at the graduate and advanced undergraduate levels peter a sola school of education howard university

for four decades from 1951 to 1990 the reformed journal set the standard for top notch venturesome theological reflection on a broad range of issues with a lively mix of editorial comment articles and reviews it addressed topics as diverse as the civil

rights movement feminism the vietnam war south african apartheid the plight of palestinian christians and the rise of the christian right all from a reformed perspective in this anthology james bratt and ronald wells have assembled select pieces that exemplify the journal's position at the cutting edge of thoughtful christian engagement with culture

this major work written by one of the leading historians of france's ancien regime is the first in depth study of the french upper clergy during the key period of the catholic reformation following the council of trent in describing the creation character and role of these early french bishops it also sheds light on social mobility education the career patterns and prospects of particular groups the workings of patronage and clientage networks and the wider dimensions of royal policy and patronage at this time joseph bergin begins by analysing the structures of the french church and the process by which individuals were nominated and confirmed as bishops he then presents a collective profile of these bishops in terms of their social and geographical origins educational attainments and pre episcopal careers bergin examines royal patronage in relation to episcopal office tracing the successive pressures with which the crown had to deal in the wider social and political world in particular he shows how the crown painfully and gradually recovered control of church patronage after the low point of the religious wars reducing the grip of the nobility on large numbers of dioceses he also examines how reforming pressures were brought to bear on the crown to appoint bishops who met the standards of the counter reformation church and how the crown became increasingly in tune with these reformist pressures he concludes by explaining particular features of the french episcopate within a wider european context the book the result of years of research in french and italian archives includes an extensive biographical dictionary that will make it an invaluable reference for all french historians of the period

this study examines the early years of the post medieval european states and the growth of a recognisably modern system for handling their international relations m s anderson gives much of his space to france spain and england and to the state of the relations between them as their various power plays rolled over italy and the low countries but he also incorporates the northern and eastern states including russia poland and the baltic world into the main european political arena he provides a broad narrative of european politics and its impact on diplomacy including the italian wars 1494 1559 the french wars of religion the reformation and counter reformation and the relations of christendom and islam with the advance of the ottoman empire he also gives considerable attention to the influence of military and economic factors on international relations
