this issue of finance development presents success and works of imf in the past 75 years since its formation the imf s financial firepower must be increased substantially particularly in a world of relatively free capital flows if the world of cooperative globalization is to survive and the imf is to maintain its role within it a great deal must change some of these changes are within the imf s control the most important challenges for the imf of tomorrow are however those created by the changing world global cooperation is needed to reap the benefits and avoid the pitfalls of cross border capital flows cross border capital flows are neither an unmitigated blessing nor an undoubted curse used judiciously they can be beneficial to recipient countries making up deficiencies in the availability of long term risk capital and reducing gaps in local corporate governance many emerging market

economies have understood that they should build foreign exchange reserves the imf model suggests that fluctuations in the exchange rate are the main reason for fluctuations in corporate liquidity in receiving countries

offering timely guidance on the junction of the opioid crisis and infectious diseases this practical handbook by dr brianna l norton provides concise yet comprehensive coverage of a growing patient population infectious disease specialists are increasingly seeing patients who previously used opioids and now use intravenous drugs many challenges are unique to this patient population including new and growing infections such as hepatitis c endocarditis hiv and hepatitis b the opioid epidemic and infectious diseases is an up to date real world guide that covers the scope of the problem management guidelines and much more describes the new landscape of the opioid crisis in the u s and its intersection with infectious diseases including epidemiology opioid use disorder oud and rural america and more offers practical guidance on oud and infectious co morbidities like hepatitis c stds endocarditis hiv and hepatitis b covers prevention treatment and harm reduction discusses oud infectious diseases and the criminal justice system consolidates today s available information and guidance into a single convenient resource

medical practitioners receive little if any formal training in the prevention assessment and management of pressure ulcers and other chronic wounds pressure ulcers in the aging population a guide for clinicians is a resource primarily aimed at physicians interested in the fundamentals of wound care this book is written for geriatricians internists general practitioners residents and fellows who treat older patients and unlike other texts on the market addresses the specific issues of wound prevention and management in older individuals pressure ulcers in the aging population a guide for clinicians emphasizes prevention proper documentation and the team care process which are often overlooked in standard texts chapters are written by experts in their fields and include such evolving topics as deep tissue injury and the newer support surface technologies

winner of the 2024 tapra david bradby monograph prize how is decadence being staged today as a practice issue pejorative and as a site of pleasure where might we find it why might we look for it and who is decadence for this book is the first monographic study of decadence in theatre and performance adam alston makes a passionate case for the contemporary relevance of decadence in the thick of a resurgent culture war by focusing on its antithetical relationship to capitalist led growth progress and intensified productivity he argues that the qualities used to disparage the study and practice of theatre and performance are the very things we should embrace in celebrating their value namely their spectacular uselessness

wastefulness outmodedness and abundant potential for producing forms of creativity that flow away from the ends and excesses of capitalism alston covers an eclectic range of examples by julia bardsley uk hasard le sin finland jaamil olawale kosoko usa toco nikaido japan martin o brien uk toshiki okada japan marcel lí antúnez roca spain normandy sherwood usa the uhuruverse usa nia o witherspoon usa and wunderbaum netherlands expect ruminations on monstrous scenographies catatonic choreographies turbo charged freneticism visions of the apocalypse and what might lie in its wake

the goal of a high quality cost effective and accessible health care for patients is achieved through constructing a team based and patient centered health care delivery system the expanded role of pharmacists uplifts them to patient care from dispensing and manufacturing or marketing of drugs along with doctors and allied health professionals pharmacists are increasingly recognized as an integral part of the patient care team furthermore colleges of pharmacy need to revise and up date their curricula to accommodate the progressively increasing development in the pharmaceutical education and the evolving new roles of practicing pharmacists in patient care settings this book focuses on the expanded role of the pharmacists in total patient care including prescribing dispensing compounding administering and monitoring of drugs at home hospital community hospice critical care changeover and other care settings the sector is emerging in both developed and under developed countries overburdened by patient loads and the explosion of new drugs physicians turned to pharmacists more and more for drug information especially within institutional settings and today s patient care pharmacists are taking more interests in medication review and reconciliation patient education and counseling creating drug therapy regimen and monitoring compliance the purpose of this book is to guide the pharmacists in their daily interactions with patients and to ensure collaboration with other health professionals the contents are mostly based on recently published articles related to patient care with most recent ideas and activities followed by the patient care pharmacists around the globe however a pharmacist implements the care plan in collaboration with other health care professionals and the patient or caregiver along with professional guidelines the book discusses the concepts and best practices of patient interaction patient rights and ethical decision making for the professional pharmacist apprentice and student in every chapter the role of pharmacists in that chapter specific issues are detailed explicitly so that a professional pharmacist or a student can figure out his or her do s and don ts in that specific situation moreover further reading references are listed as future recommendations so the book is an archive of potential references too among so many books about patient care either doctors or nurses roles are highlighted the proposed book highlights the pharmacists roles and responsibilities to the most separated from those of doctors and nurses with the most recent information obtained from most publications in several journals books bulletins newsletter magazines etc

in this book a worldwide panel of leading experts discuss the role of inflammation in the pathogenesis of major chronic diseases and the current controversy regarding risk versus benefit of selective cyclooxygenase 2 cox 2 inhibitors the authors provide exciting and enlightening perspectives on cox 2 and related molecular targets in the future of medicine including historical perspectives
