the complete guide to understanding the structure of homeland security law new topics featuring leading authors cover topics on security threats of separatism secession and rightwing extremism aviation industry s crew resource management principles and ethics legal and social issues in homeland security legal and social issues in homeland security in addition the chapter devoted to the trans pacific partnership is a description of economic statecraft what we really gain from the tpp and what we stand to lose the power of pop culture in the hands of isis describes how isis communicates and how pop culture is used expertly as a recruiting tool text organized by subject with the portions of all the laws related to that particular subject in one chapter making it easier to reference a specific statute by topic allows the reader to recognize that homeland security involves many specialties and to view homeland security expansively and in the long term includes many references as a resource for professionals in various fields including military government first responders lawyers and students includes an instructor manual providing teaching suggestions discussion questions true false questions and essay questions along with the answers to all of these

from an award winning historian a compelling and frankly terrifying telegraph analysis of the rise of nazi extremism how such thinking gained popularity and why it is vital to fight burgeoning extremist movements today how could the ss have committed the crimes they did how were the killers who shot jews at close quarters able to perpetrate this horror why did commandants of concentration and death camps willingly and often enthusiastically oversee mass murder how could ordinary germans have tolerated the removal of the jews in the nazi mind bestselling historian laurence rees seeks answers to some of the most perplexing questions surrounding the second world war and the holocaust ultimately he delves into the darkness to explain how and why these people were capable of committing the worst crimes in the history of the world from the fringe politics of the 1920s to the electoral triumph and mass mobilization of the 1930s and from the holocaust through to the regime s eventual demise rees charts the rise and fall of nazi mentalities including the conditions that allowed such a violent ideology to flourish and the sophisticated propaganda effort that sustained it using previously unpublished testimony from former nazis and those who grew up in the nazi system and in depth insights based on the latest research of psychologists the nazi mind brings fresh understanding to one of the most appalling regimes in history

a pleasant chatty book on a fascinating subject kirkus reviews octopuses have been captivating humans for as long as we have been catching them yet for all of our ancient fascination and modern research we still have not been able to get a firm grasp on these enigmatic creatures katherine harmon courage dives into the mystifying underwater world of the octopus and reports on her research around the world she reveals for instance that the oldest known octopus lived before the first dinosaurs that two thirds of an octopus s brain capacity is spread throughout its arms meaning each literally has a mind of its own and that it can change colors within milliseconds to camouflage itself yet appears to be colorblind

this book explores the fascinating and complex lives of the honey badger the african jackals black backed and side striped african golden wolves and eurasian golden jackals in recent years interest in these creatures has grown exponentially through wildlife documentaries and media clips showing the aggressive fearless and tenacious behaviour of the honey badger with jackals often presented in a supporting role written by renowned journalist and educator keith somerville this accessible volume includes historical narratives folklore and contemporary accounts of human wildlife relationships and conflicts it traces the evolution of the species their foraging and diet the development of their relationships with humans and their commensal kleptocratic and symbiotic relationships with other carnivores raptors and birds it also charts the recent expansion in european jackal numbers and ranges now including as far west as the netherlands and as far north as finland blending historical observations by non scientists colonial officials administrators and early conservationists with contemporary scientific accounts it presents a new multidisciplinary approach that will interest researchers scientists and students in wildlife conservation human wildlife relations zoology biology and environmental science

the atlas describes soil as habitat for the diversity of organisms that live under our feet at the same time it draws attention to the threats to soil biodiversity such as invasive species pollution intensive land use practices or climate change the atlas provides current solutions for a sustainable management of soils it was coordinated by the jrc and the global soil biodiversity initiative [globalsoilbiodiversity.org](http://globalsoilbiodiversity.org) with more than 70 contributing organisations and several hundred individual contributions it illustrates the diversity of soil organisms explains their geographical and temporal distribution the ecosystem functions

and services provided by soil biota most importantly it draws attention to the myriad of threats to soil biodiversity these include inappropriate land management practices e.g. deforestation land take for infrastructure development agricultural systems over grazing forest fires and poor water management both irrigation and drainage other practices such as land conversion from grassland or forest to cropped land result in rapid loss of soil carbon which indirectly enhances global warming the atlas shows that mismanaging soils could exacerbate the effects of climate change jeopardise agricultural production compromise the quality of ground water and worsen pollution it also proposes solutions to safeguard soil biodiversity through the development of policies that directly or indirectly target soil health leading to a more sustainable use

aggregated book

an exhibition publication documenting the shortlisted artists and their works in the award of the same name
