mccawley supplements his earlier book which covers such topics as presuppositional logic the logic of mass terms and nonstandard quantifiers and fuzzy logic with new material on the logic of conditional sentences linguistic applications of type theory anil gupta s work on principles of identity and the generalized quantifier approach to the logical properties of determiners

from the news to school hallways xenophobic rhetoric is sadly on the rise this book provides an all too timely resource for students to understand what xenophobia is remember to avoid xenophobic language and most importantly work to wipe out

xenophobia through easy to follow text that is accessible even to struggling readers the book provides key strategies for helping students to both recognize and confront xenophobia in their communities personal stories of teens and adults who both experienced xenophobia and helped speak out against it are also shared

much of what we do in classrooms is intuitive steered by what feels right but all too often intuition proves a poor sometimes treacherous guide although what we know about the workings of the human brain is still pitifully little the science of psychology can and has revealed certain surprising findings that teachers would do well to heed over the past few decades psychological research has made real strides into understanding how we learn but it is only in the last few years that education has become aware of these insights part of the problem is a tendency amongst teachers to resist being told what works if it conflicts with intuition whilst we cannot and should not relinquish our professional judgement in the face of outlandish claims we should at least be aware of what scientists have discovered about learning thinking motivation behaviour and assessment over the past few decades this though is far easier said than done every year thousands of research papers are published some of which contradict each other how can busy teachers know which research is worth investing time in reading and understanding here david didau and nick rose attempt to lay out the evidence and theoretical perspectives on what they believe are the most important and useful psychological principles of which teachers ought to be aware that is not to say this book contains everything you might ever need to know there is no way it could it is merely a primer we hope that you are inspired to read and explore some of the sources for yourself and see what other principles can find a home in your classroom some of what we present may be surprising some dubious but some in danger of being dismissed as blindingly obvious before embracing or dismissing any of these principles we urge you to interrogate the evidence and think carefully about the advice we offer while nothing works everywhere and everything might work somewhere this is a guide to what we consider the best bets from the realm of psychology

everything you need to know about nature by dorothy larock skinner god has created so many wonders in nature for us to enjoy and explore learn all about god's creation in this book the more we learn and the more we're out in nature the closer we will feel to our creator

jesus parables they are widely known or at least often referenced but does that mean they are well understood having slipped into the lingua franca of our day we could be missing some of what he was communicating if familiarity breeds contempt perhaps our sense that we know these stories insulates us from what jesus was saying about life with god if jesus intended his parables to be much more than helpful illustrations or memorable word pictures we might need to hear them in a fresh way we could be overlooking what is essential if we read his parables simply as clever stories like a chef who seasons the meal in such a way that the distinctive flavors of each element is enhanced brian invites the reader into an invigorating and fresh taste of what jesus says in his parables reading each parable attentive to jesus own words and the context in which these stories are found you'll hear the voice of the savior in renewed ways no

longer will you think of his parables as clever stories but you ll find them to be life giving words from jesus

explains the types of grants that are available developing a fundable project understanding the funder creating quantitative goals and assessments and writing a successful proposal
