in this critical work on the political thought of leo strauss sean noah walsh addresses leo strauss s claims about esotericism in the

philosophic texts of plato he challenges strauss s understanding of esoteric writing as an attempt by plato to secretly encode the highest truths exclusively between the lines in order to avoid persecution indeed through the character of socrates the speaker with whom plato is inextricably associated walsh asserts that plato s exoteric writings were sufficiently incendiary and provocative to demonstrate that a fear of persecution was not his highest priority the politics that follow from strauss s thought depend on the interpretation of these platonic philosophical bases and by analyzing how the problem of fear has been confronted in the works of plato and leo strauss walsh offers a direct and thorough account of the politics that emerge from strauss s esoteric reading of political philosophy applying lacanian psychoanalysis walsh investigates the discourse of straussian esotericism and examines plato s writing for examples of exoteric risk subjecting both plato and strauss s writings to lacan s psychoanalytic technique for interpreting the function of desire in discourse given the continuing influence of strauss s ideas on contemporary politics particularly within american foreign policy walsh s examination of this straussian esotericism for these effects will prove an interesting read for political theorists international relations scholars and philosophers alike
