six decades later there is still a mystique surrounding these technological leviathans one that zeppelin addresses with insight and wit

the 1920s is often recognised as a decade of fascism flappers and film covering the political economic and social developments of the 1920s throughout the world the global 1920s takes an international and cross cultural perspective on the critical changes and conditions that prevailed from roughly 1919 to 1930 with twelve chapters on themes including international diplomacy and the imperial powers film and music art and literature women and society democracy fascism and science and technology this book explores both the big questions of capitalism class and communism on the one hand and the everyday experience of citizens around the globe on the other utilising archival sources throughout it concludes with an extensive discussion of the circumstances surrounding the 1929 stock market crash and

the onset of the great depression the effects of which were felt worldwide covering topics from the oil boom in south america to the start of civil war in china employment advances and setbacks for women across the globe and the advent of radio and air travel the authors provide a concise yet comprehensive overview of this turbulent decade containing illustrations and a selection of discussion questions at the end of each chapter this book is valuable reading for students of the 1920s in global history

airpower more than any other factor has shaped war in the twentieth century in this fascinating narrative history martin van creveld vividly portrays the rise of the plane as a tool of war and the evolution of both technology and strategy he documents seminal battles and turning points and relates stories of individual daring and collective mastery of the skies however the end of airpower s glorious age is drawing near the conventional wisdom to the contrary modern precision guided munitions have not made fighter bombers more effective against many kinds of targets than their predecessors in world war ii u s ground troops calling for air support in iraq in 2003 did not receive it any faster than allied forces did in france in 1944 and from its origins on airpower has never been very effective against terrorists guerrillas and insurgents as the warfare waged by these kinds of people grow in importance and as ballistic missiles satellites cruise missiles and drones increasingly take the place of quarter billion dollar manned combat aircraft and their multi million dollar pilots airpower is losing utility almost day by day

in the early twentieth century the technology of flight changed warfare writers argued that the main strategic risk to britain was the possibility of a sudden destructive aerial bombardment of britain s cities for the first time the next war in the air draws on archival documents and publications from 1908 1941 to reconstruct the concept of the knock out blow as it was articulated in the public sphere the reasons why it came to be so widely accepted and the way it shaped the responses of the british public to some of the great issues facing them in the 1930s

this book explores the phenomenal resources dedicated to understanding and encouraging passengers to consume travel from 1900 to 1939 analysing how place and travel were presented for sale using the great western railway as a chief case study as well as a range of its competitors both on and off the rails alexander medcalf unravels the complex and ever changing processes behind corporate sales communications this volume analyses exactly how the company pictured passengers in the countryside at the seaside in the urban landscape and in the company s vehicles this thematic approach brings transport and business history thoroughly in line with tourism and leisure history as well as studies in visual culture

flying and the pilot were significant metaphors of fascism s mythical modernity fernando esposito traces the changing meanings of these highly charged symbols from the air show in brescia to the sky above the trenches of the first world war to the violent ideological clashes of the interwar period

from the publisher proceedings of october 2007 conference sponsored by the nasa history division and the national air and space museum to commemorate the 50th anniversary of the sputnik 1 launch in october 1957 and the dawn of the space age

this book provides a new social history of british performance cultures in the early decades of the twentieth century where performance across stage and screen was generated by dynamic and transformational industries exploring an era book ended by wars and troubled by social unrest and political uncertainty a social history of british performance cultures 1900 1939 makes use of the popular material cultures produced by and for the industries autobiographies fan magazines and trade journals as well as archival holdings popular sketches plays and performances maggie b gale looks at how the performance industries operated circulated their products and self regulated their professional activities in a period where enfranchisement democratization technological development and legislation shaped the experience of citizenship through close examination of material evidence and a theoretical underpinning this book shows how performance industries reflected and challenged this experience and explored the ways in which we construct our performance as participants in the public realm suited not only to scholars and students of british theatre and theatre history but to general readers as well a social history of british performance cultures 1900 1939 offers an original intervention into the construction of british theatre and performance histories offering new readings of the relationship between the material cultures of performance the social professional and civic contexts from which they arise and on which they reflect

general aviation encompasses all the ways aircraft are used beyond commercial and military flying private flights barnstormers cropdusters and so on authors janet and michael bednarek have taken on the formidable task of discussing the hundred year history of this broad and diverse field by focusing on the most important figures and organizations in general aviation and the major producers of general aviation aircraft and engines this history examines the many airplanes used in general aviation from early wright and curtiss aircraft to the piper cub and the lear jet the authors trace the careers of birdmen birdwomen barnstormers and others who shaped general aviation from clyde cessna and the stinson family of san antonio to olive ann beech and paul poberezny of milwaukee they explain how the development of engines influenced the development of aircraft from the e 107 that powered the 1929 aeronca c 2 the first affordable personal aircraft to the continental a 40 that powered the piper cub and the pratt and whitney pt 6 turboprop used on many aircraft after world war ii in addition the authors chart the boom and bust cycle of general aviation manufacturers the rising costs and increased regulations that have accompanied a decline in pilots the creation of an influential general aviation lobby in washington and the growing popularity of type clubs created to maintain aircraft whose average age is twenty eight years this book provides readers with a sense of the scope and richness of the history of general aviation in the united states an epilogue examining the consequences of the terrorist attacks on september 11 2001 provides a cautionary note

a world history of rubber helps readers understand and gain new insights into the social and cultural contexts of global production and consumption from the nineteenth century to today through the fascinating story of one commodity divides the coverage into themes of race

migration and labor gender on plantations and in factories demand and everyday consumption world wars and nationalism and resistance and independence highlights the interrelatedness of our world long before the age of globalization and the global social inequalities that persist today discusses key concepts of the nineteenth and twentieth centuries including imperialism industrialization racism and inequality through the lens of rubber provides an engaging and accessible narrative for all levels that is filled with archival research illustrations and maps
