children are already learning at birth and they develop and learn at a rapid pace in their early years this provides a critical foundation for lifelong progress and the adults who provide for the care and the education of young children bear a great responsibility for their health development and learning despite the fact that they share the same objective to nurture young children and secure their future success the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well transforming the workforce for children birth through age 8 explores the science of child development particularly looking at implications for the professionals who work with children this report examines the current capacities and practices of the workforce the settings in which they work the policies and infrastructure that set qualifications and provide professional learning and the government agencies and other funders who support and oversee these systems this book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals these detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning shared knowledge and competencies for care and education professionals and principles for effective professional learning young children thrive and learn best when they have secure positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress transforming the workforce for children birth through age 8 offers guidance on system changes to improve the quality of professional practice specific actions to improve professional learning systems and workforce development and research to continue to build the knowledge base in ways that will directly advance and inform future actions the recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive and ultimately improve outcomes for children

social justice is a concept which is widely touted and lauded as desirable yet its meaning may differ depending on whether its focus is on the underlying values of social justice the more specific objectives these entail or the actual practices or policies which aim to achieve social

justice in the current global political context we need to re examine what we mean by social justice and demonstrate that making a difference and contributing to human flourishing is more achievable than this context would suggest the book aims to increase our sense of being able to enact social justice by showcasing different ways of contributing to social justice and making a difference in different settings and different ways part 1 introduces a fluid and contextual approach to social justice part 2 examines social justice and faith perspectives such as christianity judaism islam and community organisations part 3 illustrates perspectives on children the family sport and local government part iv provides perspectives of social justice in education considering concepts of citizenship and social justice from a variety of contemporary perspectives everyday social justice and citizenship should be considered essential reading for academics and students from a range of social scientific disciplines with an interest in social justice as well as those working in education community work youth work and chaplaincy

this book presents early childhood students and staff with a broad and diverse range of teaching techniques to support children's learning it examines 26 techniques ranging from simple ones such as describing and listening to more complex methods such as deconstruction and scaffolding the strategies selected are derived from the best current research knowledge about how young children learn a detailed evaluation of each strategy enables childcare staff early childhood teachers and students to expand their repertoire of teaching strategies and to critically evaluate their own teaching in early childhood settings vignettes and examples show how early childhood staff use the techniques to support children's learning and help to bring the discussion of each technique to life revised and updated in light of the latest research new features include coverage of the phonics debate addition of ict content questions for further discussion revision to the chapter on problem solving updated referencing throughout teaching young children is key reading for students and experienced early childhood staff working in diverse settings with young children

regulatory problems defined as excessive crying sleeping or feeding problems are among the most common concerns of parents with children 0 5 years old these problems are typically understood within the context of the parent child relationship however the complex underlying mechanisms that explain the occurrence and continuation as well as long term outcomes of regulatory problems are still poorly understood despite some promising treatment options important knowledge gaps remain to be addressed which will inform evidence based practice for

services of children aged 0-5 with this research topic we aim to bring together research from different countries and from multidisciplinary research backgrounds on the topic of regulatory problems and disorders we particularly encourage research that focuses on observed parent child interactions in relation to regulatory problems we view regulatory problems as a transdiagnostic biopsychosocial concept covering excessive crying sleeping and or feeding and eating problems however studies with a focus on any of these problems are also encouraged

this interdisciplinary book provides a cross sectoral and multi dimensional exploration and assessment of the urban geography perspectives in zimbabwe drawing on work from different disciplines the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of zimbabwe attaining middle income status by 2030 adopting a multi dimensional assessment that transcends disciplines such as urban and regional planning human and physical geography urban governance political science economics and development studies the book provides a background for co production concerning urban development in the global south the book contributes into its analysis of the institutional and legislative framework that relates to the urban geography of zimbabwe as these are responsible for the evolution of the urban system in the country the connections among different sectors and issues such as environment economy politics and the wider objectives of the sdgs especially goal 11 aspiring to create sustainable communities by 2030 are explored the success stories relating to urban geography in zimbabwe are identified together with the best possible practices that may inform urban planning policy and management
