use the internet like a real spy untangling the is the national security agency s once classified guide to finding information on the internet from the basic to the advanced this 650 page book offers a fascinating look at tricks the real spies use to uncover hidden and not so hidden information online chapters include google hacks metasearch sites custom search engines maps mapping uncovering the invisible internet beyond search engines specialized research tools email lookups finding people researching companies a plain english guide to interworking internet toolkits finding isps cybergeography internet privacy and security and over a hundred more chapters this quote from the authors hints at the investigative power of the techniques this book teaches nothing i am going to describe to you is illegal nor does it in any way involve accessing unauthorized data but involves using publicly available search engines to access publicly available information that almost certainly was not intended for public distribution from search strings that will reveal secret documents from south africa filetype xls site za confidential to tracking down tables of russian passwords filetype xls site ru login this is both an instructive and voyeuristic look at how the most powerful spy agency in the world uses google

finding community is as critical as obtaining food and shelter since the need to belong is what makes us human the isolation and loneliness of modern life have led many people to search for deeper connection which has resulted in a renewed interest in intentional communities these intentional communities or ecovillages are an appealing choice for like minded people who seek to create a family oriented and ecologically sustainable lifestyle a lifestyle they are unlikely to find anywhere else however the notion of an intentional community can still be a tremendous leap for some deterred perhaps by a misguided vision of eking out a

hardscrabble existence with little reward in fact successful ecovillages thrive because of the combined skills and resources of their members finding community presents a thorough overview of ecovillages and intentional communities and offers solid advice on how to research thoroughly visit thoughtfully evaluate intelligently and join gracefully useful considerations include important questions to ask of members and of yourself signs of a healthy and not so healthy community cost of joining and staying common blunders to avoid finding community provides intriguing possibilities to readers who are seeking a more cooperative sustainable and meaningful life diana leafe christian is the author of creating a life together and editor of communities magazine she lives at earthhaven ecovillage in north carolina

the historical and digital humanities fosters discussions between the digital humanities and web archive studies by focussing on one of the largest entities of the web namely national and transnational web domains such as the british french or european web with a view to investigating whether and how web studies and web historiography can inform and contribute to the digital humanities this volume contains a number of case studies and methodological and theoretical discussions that both illustrate the potential of studying the web in this case national web domains and provide an insight into the challenges associated with doing so commentary on and possible solutions to these challenges are debated within the chapters and each one contributes in its own way to a web history in the making that acknowledges the specificities of the archived web the historical and digital humanities will be essential reading for those with an interest in how the past of the web can be studied as well as how big data approaches can be applied to the archived web as a result this volume will appeal to academics and students working and studying in the fields of digital humanities internet and media studies history cultural studies and communication
