starting or improving your business is written to help those people just starting a business or who already in one and wish to improve it it is based on my almost 50 years in industry in large companies that i have worked for and in small companies that i have started while no book can guarantee that you can get rich this book tries to mostly contain warnings of what to look for how

to plan or what to avoid no book ever covers anything but it is my belief that this book covers some very important items for business that include both the very large businesses and the very tiny startups there are just some of us that seem to have the word entrepreneur in our blood regardless of how successful or not we become there seems to be that challenge to business to overcome the difficulties and then succeed that seems not only good for us but may also be fun at the same time and even if we do just a bit the satisfaction of trying something hard and accomplishing some of our goals makes some of us feel better about ourselves and of course our accomplishments may help others as well the book includes some generalities that i have found along the way and the book also includes some specific examples from the three large firms that i worked at and also the more than 5 business startups that i attempted even if your business is different some days it seems to me that there is often more the same than there is that is different from business to business that might explain the popularity of small business associations which at times i was a part of whether or not you decide this book may have something important to you if you are trying to start or improve a business i do wish you the very best i also wish that you also find some fun in doing that along the way

in the 80s the birmingham england band duran duran became closely associated with new wave an idiosyncratic genre that dominated the decade s music and culture no album represented this rip it up and start again movement better than the act s breakthrough 1982 lp rio a cohesive album with a retro futuristic sound influences include danceable disco tangy funk swaggering glam and roxy music s art rock the full length sold millions and spawned smashes such as hungry like the wolf and the title track however rio wasn t a success everywhere at first in fact the lp had to be buffed up with remixes and reissued before it found an audience in america the album was further buoyed by colorful music videos which established duran duran as leaders of an mtv driven second british invasion and the group s cutting edge visual aesthetic via extensive new interviews with band members and other figures who helped rio succeed this book explores how and why rio became a landmark pop rock album and examines how the lp was both a musical inspiration and a reflection of a musical cultural and technology zeitgeist

during the late byzantine period 1261 1453 a significant number of texts were translated from latin but also from arabic and other languages into greek most of them are still unedited or available in editions that do not meet the modern academic criteria nowadays these translations are attracting scholarly attention as it is widely recognized that besides their philological

importance per se they can shed light on the cultural interactions between late byzantines and their neighbours or predecessors to address this desideratum this volume focuses on the cultural context the translators and the texts produced during the palaeologan era extending as well till the end of 15th c in ex byzantine territories by shedding light on the translation activity of late byzantine scholars this volume aims at revealing the cultural aspect of late byzantine openness to its neighbours
