by analysing the irish development strategy this book questions its much portrayed  
success the republic of ireland has followed an export oriented development path relying  
on foreign direct investment inflows as the main development agent however this chosen  
path of development has led to growing industrial social and developmental polarisations  
despite the indisputable impressive overall growth figures growth is primarily driven by the  
investing multinationals and the inequality of earnings have been exacerbated thus  
questioning the irish growth model s success
