essay from the year 2021 in the subject business economics business management corporate governance grade 1 3 university of applied sciences essen language english abstract in 1986 rappaport published the book creating shareholder value in which he described the shareholder value sv approach as a new standard for

business performance a quantitative corporate ethical philosophy is addressed with the term shareholder value which has always been a matter of course for business investment theorists basically shareholder value describes the mathematical maximization of the net present value of investments this entrepreneurial approach was not viewed with skepticism on a global scale until the banking and financial crisis an alternative approach was examined to overcome the banking and economic crisis the corporate social responsibility csr approach emerged which was seen as a sustainable and pluralistic alternative however the csr approach is viewed critically from a business perspective it is questioned to what extent csr actually influences on the economic success of a company this will also be the subject of this essay the aim is to show whether linking csr and the sv approach creates a corporate strategy that generates monetary gains and represents a perfect fit
