travel often inspires the creation of narratives about journeys and destinations more so with the increasing availability of online platforms applications for smartphones and tablets and various other social media technologies this book examines travel blogs and their associated social media as a form of self presentation that negotiates the tensions between discourses of travel and tourism as such it addresses how

contemporary travellers use online platforms to communicate their experiences of journeys and destinations and how the traveller tourist dichotomy finds expression in these narratives addressing the need for more in depth analysis through a study of blogs this exploration of networked narratives of an individual s travel experience considers personal motivations self promotion and self presentation as key factors in the creation of both personal and commercial travel blogs as this text applies concepts such as self presentation and heteroglossia it will be of interest to both students and scholars of tourism new media sociology cultural studies and discourse studies

due to the growth of computer technologies and web technologies we can easily collect and store large amounts of text data we can believe that the data include useful knowledge text mining techniques have been studied aggressively in order to extract the knowledge from the data since late 1990s even if many important techniques have been developed the text mining research field continues to expand for the needs arising from various application fields this book is composed of 9 chapters introducing advanced text mining techniques they are various techniques from relation extraction to under or less resourced language i believe that this book will give new knowledge in the text mining field and help many readers open their new research fields
