theme is what your story is really abouttheme the mysterious cousin of plot and character too often viewed as abstract rather than actionable theme is frequently misunderstood and left to chance some writers even insist theme should not be purposefully implemented this is unfortunate because in many ways theme is story theme is the heart the meaning the point nothing that important should be overlooked powerful themes are never incidental they emerge from the conjunction of strong plots and resonant character arcs this means you can learn to plan and implement theme in doing so you will deepen your ability to write not only stories that entertain but also stories that stay with readers long after the end writing your story s theme will teach you how to create theme from plot and character why every supporting character and subplot should enhance the theme how to prevent theme from seeming preachy or on the nose what to consider in identifying the best theme for any given story and much more conscious mastery of theme will elevate every story you write and allow you to craft fiction of depth and meaning take control of your story via a powerful implementation of theme

the interpretive theme is the most important sentence an interpreter inks on paper despite its centrality to thematic interpretation no single work has dedicated itself entirely to the art and craft of strong theme writing until now the interpretive theme writer s field guide builds on sam ham s 30 year thematic interpretation research legacy while leaving theory to his books this pocket companion offers writers strong theme examples worksheets exercises inspirational quotes and technique highlights with contributions from sam ham ted cable shelton johnson and clark hancock this field guide is useful at the desk in the exhibit hall or on the trail it recognizes that teams even communities create heritage themes and introduces the interpretive framework methodology to facilitate community based theme writing

understanding and evaluating research a critical guide shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question the use of theory in the study the methods used and how the outcomes are reported the book

starts with what it means to be a critical and uncritical reader of research followed by a detailed chapter on methodology and then proceeds to a discussion of each component of a research article as it is informed by the methodology the book encourages readers to select an article from their discipline learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report
